SCHOOLGIRL LABOR PLAN IS ATTACKED

Women's Trade Union Chief Protests Against Commercializing Sewing Classes

COMPLAINS AT MEETING

A protest against the alleged exploitations of schoolgirl labor has been made by Miss Pauline Newman, organizer of the Women's Trade Union League of this city, in a report presented at the Central Labor Union yesterday.

According to the charge Miss Newman asserts that the Girls' Trade School has been employed for a number of weeks making nothing but aprons for a manufacturer, instead of teaching its pupils all forms of sewing. The financial returns on production at the school go to the Board of Education.

The protest is one that is raised not from animosity on the part of the Trade Usion League, but rather from a desire to have the Trade School maintained on the principles it stands for.

"The facts in the case are these," and Miss Frieda Miller, executive secretary of the league, today. "The school had at one time its own cutter, but for some reason, economy perhaps, it was school that the school could do without

some reason, economy perhaps, it was decided that the school could do without

the cutter and bring in cut materials from a manufacturer. The school should have its own cutter.

"We are not protesting against the bleat that this is necessarily had now, but our feeling is that when the Trade School simply takes the work handed out to it by a manufacturer, it is unable to maintain the standard of eduional merit for which it should stand. If the school came to depend on manu-lacturers it would be unfortunate. Just

however, it is rather the principle than the actual fact we are protesting."

The matter will be discussed at a numbership meeting of the league on It has been the practice of the Trade School to have special sales of its pro-duction, but the sales should be to the

duction, but the sales should be to the consumer and not to a manufacturer, according to Miss Miller.

Mr. William C. Ash, director of arts and vocational education, is in Boston, and will not return until the latter part

of next week.

Miss Ruth P. Sill, director of girls'
trade work in the Toronto Technical
School of 8000 pupils, will be the princinal at the Girls' Trade School here in Philadelphia beginning Monday. Miss Sill will be permanently located here from the first of May.

Thieves Visit Leather Shop for Third Time-Get Beaded Bags For the third time since January 1

robbers smashed the display window of the William Curry leather store at 1112 (Chestout street, shortly after midnight this morning, and escaped with beaded bags valued at \$150.

The thieves used a padded brick. They timed the robbery when patrolinen of that district were being relieved by a later shift.

The chieve sizes window was badly memorial excepted in honor of the discovered the make contributions that totaled a considerable sum.

Judge John M. Patterson, who made the principal address, declared the occasion was one for rejoicing and that the memorial excepted in honor of the discovered the sum of the principal address, declared the occasion was one for rejoicing and that the robbers smashed the display window of the William Curry leather store at 1112

The plate glass window was badly shattered by the brick. No one heard the noise, and the robbery was not dis-

covered until a patrolman of the early

osts last Friday morning by Magistrate Harris, of the Thirty second street and Woodland avenue station.

Eighteen other students, members of the Wharton, College and Towne Scien-tific Schools, at the University, will probably be reimbursed in the same manner at meetings to be called later today by the class presidents.

Arrest and fining of the twenty-two men last Thursday night, following

Penn's basketball victory over Chicago, has aroused a wave of indignation at the University.

It is charged that the police, under Lieutenant Boston, arrested innocent bystanders, and that many students. returning to their dormitories, were shot at by the police, who, it is said, ar-rested some of the men in their rooms. A list of counter-charges against the

A list of counter-energes against the police is being prepared by the students and M. Fitzpatrick, a proctor in the dormitories, with the sanction of Provost Smith. Several prominent attorneys, alumni of the University, have expressed their intention of aiding the tradests, in preparing a case against students in preparing a case against those responsible for their arrest and

NO REST FOR HERO COP

Patrolman Saves 5-Year-Old Negro From Flames on Day Off

Patrolman MacAnally, of the Thirtyninth street and Lancaster avenue station, was enjoying his day off when at
10:45 o'clock he discovered flames issuing from the home of Walter Holmes, a
negro, 3903 Aspen street.

Hearing screams from the second
floor, the patrolman dashed through the
smoke and flames and dragged Walter.
Jr., five years old, to safety. The fire
caused \$500 damage. Two men were held in \$500 bail

The men are John Fridel and Joseph caused \$500 damage.

Held In Stabbing Affray They were arrested Saturday by John Buchanau, U. S. customs officer, who Joseph Arello, forty-one years old, 315 Almond street, and his brother Frank, fifty-four years old, 421 East sa'd he caught them coming ashore with a bag and grip filled with liquor. Bu-chanan said the men had an extensive assortment of alcoholic beverages. Price street, were taken to the Ger-mantown Hospital with knife cuts, and Buchanan said the men admitted they were bringing the liquor ashore to sell. He said the captain of the Folsom did not declare the presence of liquor aboard.

Mike Galuana, giving an address on Armat street, was held in \$1000 bail for court, as the result of a stabbing affray at Ashmead and Sheldon streets last night.

Dental Students Reimburse 4 Physician Belleves Exporter Died From Poisoning by Wood Alcohol

Undergraduates of the Evans Dental Institute at the University of Pennsylvania held a meeting this morning and took up a collection to reimburse four dental students who were fined \$10 and costs last Friday, morning by Magis-

St. James Hotel annex.

According to a report made to Coroner Knight by Dr. Charles F. Duncan, 1421 Walnut street, Mr. Hargrove's death was due to wood alcohol poisoning.

Frank Paul, coroner's detective, who, with Edward J. Blum, district deputy, is directing the investigation, said yesterday the cause of Mr. Hargrove's death had not yet been established definitely. An analysis of the contents of several liquor and wine bottles found in the apartment is being made by Dr. William C. Robinson, city chemist, and Dr. J. A. Attix, a chemist employed by the coroner's office from time to time of investigation purposes.

Mr. Hargrove, who was forty-four discussion business. Officials of the Brill Co. said Mr. Hargrove was a man of unusual ability and or investigation purposes.

Mr. Hargrove, who was forty-four

Mr. Hargrove, who was forty-four years old, was prominent in exclusive society. He was a member of the Art Club, the Huntingdon Valley Country Club, the India House, in New York city, and the International Export Association. He had lived in the St. James annex six years.

Horn in Birmingham, England, where his father is a millionsire steel manufacturer, Mr. Hargrove came to this country sixteen years ago. He was a man of unusual ability and attainment.

Mr. Hargrove was taken violently ill about 8 o'clock Saturday night, Doctor Duncan, two other physicians and a nurse for nearly four hours battled with death, Every device to revive the man was employed. He died shortly before midnight. The body was removed immediately to the undertaker's establishment and a preliminary report made o the coroner.

DIAMOND ENGAGEMENT RINGS

For Quality, and Originality of Design, and Excellence of Workmanship-this Company has world-wide reputation.

Art in Advertising

DVERTISING is an expression of busi-A ness ideals. The form it takes is a reflection of the principles of the institution it represents. From the big "vital appeal" to the smallest piece of "follow-up" your advertising is yourself.

More than ordinarily have we been called upon to express the "Big Idea" of big concerns. Perhaps our appreciation of the importance of the art function in advertising has enabled us to produce most impressive campaigns.

Their smashing appeal—their absolute "fitness," their overpowering artistry have made our clients' campaigns tremendously successful.

Whatever the particular bit of work from the great color page in the national publications to the dainty thumb-nail sketches in the most exquisite brochure, we know the artist who excels in that special style.

We have the best and most famous artists in this country listed in our Art Department . . . artists who like to do work for us because they know we buy quantities of the best art work and because they enjoy the prestige of work of our standard.

We have every artist of importance in this country indexed in a special file with his or her particular "forte" given.

This file is "cross indexed" with another file with examples of the artists' work.

When any particular piece of work is required for one of our clients, we know at once the one artist in this country who excels in that particular line.

In conference with one or both of our Executives and our Plan Men and Accounts Managers, our Art Director and Visualizers carefully study the advertising proposition, make many "layouts" and sketches until we properly visualize the "Big Idea" . . . the gripping appeal that makes a campaign a positive success. Then the rough sketches are sent to the particular artist selected for this work and in due course the finished drawings are received.

Art in Drawing; art in Plate Making; art in Printing! We never permit a good piece of art to be ruined by poor Plates or Printing. We exercise the same discriminating care in the process of reproduction as we do in securing the original.

Donovan-Armstrong is widely known for its care in securing the "Big Idea" in the campaigns . . . the gripping appeal . . . and in all the mediums of expression.

We maintain this super-excellence of practice at all times with our clients. Our relationship with them shows this most conclusively.

Our present clients have been with us on an average of seven years and six months ... this average is constantly getting longer. With agencies in general the average life of accounts is eleven months.

Our business in 1919 increased 150 per cent. over that of 1918. Ninety-six per cent. of our total volume of business in 1919 was from clients who had been with us more than one year and up to twenty-five years.

These are expressive figures for any manufacturer contemplating advertising for the first time or who is anxious to secure better advertising service.

We have some very interesting stories of success to tell. An appointment would entail no obligation and might be advan-
