eakers to put down the unauthorized able performance about the polls. lkout of members of the recently seld forth a promise of restoration of through Chicago by Saturday, reprelected by the strike and the Brotherstatives of the eighteen railroads Trainmen and the Switchmen's of North America said early

two major unions have joined the railroad managers in declarthe strike illegal and it was through yardmen in other cities in the Chicago district at. They said an additional 500 to union men would arrive today to op straighten out the tangled traffic

Cleveland, April 6.—(By A. P.)—
W. G. Lee, president of the Brotherhood of Railway Trainmen, today issued
the following statement regarding the
employment of brotherhood members as nion strikebreakers in the Chicago

the fullest extent with operating officers 9439;
If the railroads and with the govern- Vinita, ment in performing the usual and regu-lar work covered by contracts made by

The question of increased wages had othing to do with the present trouble, ut the removal of John Grunau from a position as yard conductor, was the cause of a few switchmen in the Chicago, Milwaukee and St. Paul Railroad yard, who were members of a renegade organization headed by Grunau, quitting work. The question of increased ose of playing upon the sympathies of was later injected for the purother trainmen and yardmen, who naturally feel that the federal railroad adtration did not grant fair and uitable wages during government con-

"Vice Presidents Whitney and Farquharson, of the Brotherhood of Trainen, are on the ground and have full harge of the situation and all loyal ers of the brotherhood who believe a protecting agreements made by their nization and who believe in law and should willingly assist in making ood the terms of our present contracts with railroad companies, especially since the question of increased wages for trainmen and yard enginemen is being repared for presentation to the federal bor board at Washington, recently reated by law."

Toledo, O., April 6 .- (By A. P.) yardmen in the Toledo switching district are meeting here today to present demands for higher wages, A second mass-meeting was called for tonight at which the wage question will organized sentiment among the

Turn Down Ford Petition Harrisburg, April 6 .- The State Devesterday received a for President. The petition bore the re-quired number of signatures, but as it did not state what party the candidate represents and as the affidavit was dective, it was rejected.

What's behind the painter's estimate?

Ask yourself this when you're omnoring the figures of any two painters. For it is very important in these high-cost-of building days to get real paint Wilson does only this kind of work. And his organization and 69 years' reputation are behind every job

CALL MINERS TO ACCOUNT Striking Kansas Coal Workers Sum

moned Before Industrial Court Pittsburg, Kan., April 6 .- (By A. P.) -Twenty-four miners of Cherokee and Crawford counties were under summons today to appear before the Kansas Industrial Relations Court, sitting here, and explain a sudden strike yesterday of between 1500 and 2000 miners

Springfield, Ill., April 6 .- (By A.

P.)-Production in at least twenty biminous coal mines in Illinois was affected seriously today by miners refusing to work because of disantisfaction with the wage scale agreement signed at New

York March 31 Frank Farrington, district president of the mine workers and chairman of the general wage scale committee, said he would call a state convention at Peoria April 20 and explain steps that led to the present agreement.

of the two counties.

According to union officials, the strike is in protest against the recent wage award of President Wilson's coal commission. Union leaders asserted the strike was voluntary and had not been called by them.

Wheeling, W. Va., April 6.—(By A. P.)—District officials of the United Mine Workers of America were making every effort today to induce the 3000 eastern Ohio coal miners who went on strike last Friday to return to work. Union leaders declared the strike is not authorized and that most of the minvolved are foreigners.

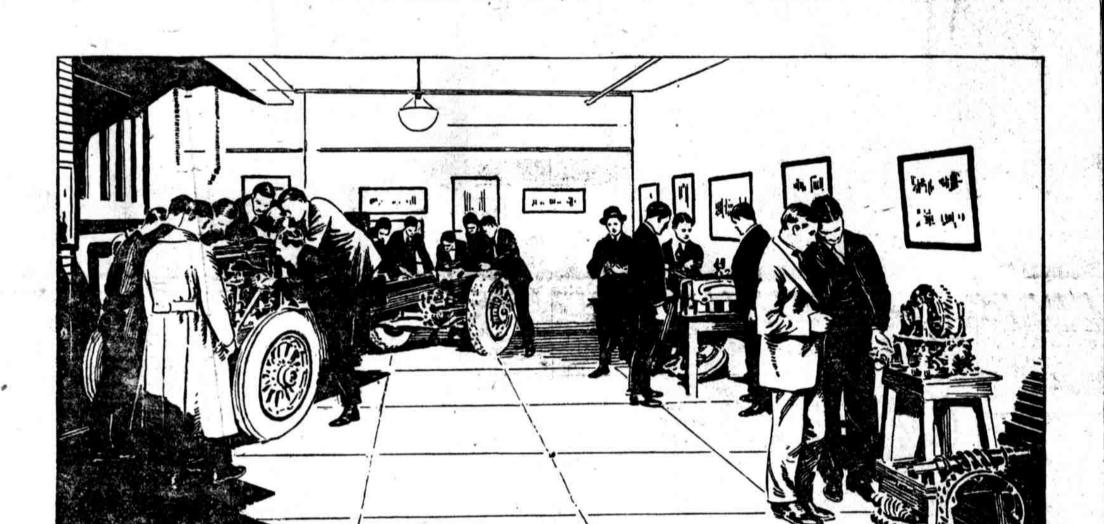

The Most Serviceable The Most Beautiful Truck in America Car in America PAIGE

The best kind of business insurance is owner-satisfaction, and we are basing our present and future growth on that one thing.

GUY A. WILLEY President

BIGELOW-WILLEY MOTOR CO

Paige Distributoes 394 NORTH BROAD STREET, PHILADELPHIA

Drivers' Conference Room - Packard Service Station. Attended by drivers from all over the Metropolitan District. Owing to the practical engineering and basis economy of the Packard Truck, a week's conferences is usually enough to win a driver his Gold Star and Certificate for Proficiency

The Driver's Experience vs. "Features" and "Talking Points"

IVE the driver a chance, and he will take any amount of trouble to find out a better way of handling his truck.

Men drive all day, and then come long distances night after night to the Packard Service Conference. The class is always full. There is a long waiting list ahead.

It is unfortunate that the average driver's efforts to keep his costs down are so often thwarted by the truck he is given to work with.

THE following National Standard I Truck Cost System facts on the performance of over 1700 Packard Trucks in 1919 have a vital signifi-

cance for the truck user. An average saving in gasoline of

10 per cent.-due to greater efficiency in operation with the aid of the National Standard System.

The National Standard System used in connection with Packard Trucks has shown it possible to reduce cost per ton mile.

Truck owners who have used the System for a year or more, and have compared the Packard with other trucks, are standardizing on Pack-

The driver finds the Packard easier all around to handle.

Less vibration; because of the smooth-running Packard engine, the construction of the worm drive, and the placing of 85 to 95 per cent. of the live load on the rear axle.

Less strain at the wheel, owing to the Packard semi-irreversible steering gear.

Easier handling on the hills, owing to Packard high tractive force on the road; and four-speed transmission graded up by even steps.

Easier to keep clean. Engine enclosed, and lubricated automatically. Fly wheel and clutch shut off from dust and mud.

THE man who is in doubt what make of truck to buy might well ask his driver's advice.

It may surprise him to learn the positive Packard opinion among men who judge a truck solely by what it will do.

How we did our Home over for less than \$100.

Y OU know that spring feeling of being sick of every room in the house. After living shut up all winter, the wallpaper seems dingy, the rugs ugly and every piece

from the zoo. Along about dandelion time, I always begin to shift things about, but the more I move them the worse they

of furniture looks like something

This year I was in despair. I made up my mind we would have to repaper and repaint, and buy a lot of new draperies, furniture and rugs. So I sent for the painter and the paperhanger. But when I got their estimates, I just had to lie down and rest. Then I made a tour of the stores, and oh! the lovely things I saw. And oh! the lovely prices.

At last one evening I handed to my husband a list of things I thought we needed, and the cost. He took one look at it, then at me, and we both just burst out laughing.

"What do you think I am," he said. 'a munition worker?" .

Then came the reaction and we were both as glum as we could be. He sat with his eyes on the ceiling, and all of a sudden he said:

"Gee, how I hate that old chande.

"Me, too," I replied, "but when we bought it, we thought it was exqui-

he said, "that D.E. 261 reminds me. Coming out on the car one day I overheard an architect talking to his client. He was saying something like this: 'The trouble with half the homes in this city is that the

lighting effect is wrong. People buy fixtures because they think they are pretty, instead of buying lighting effects. Oftentimes, by simply changing the distribution of light, I have shown people how to save hundreds of dollars that they were intending to spend on re-decorating or on new furnishings. You see, the old fashioned kind of lighting made a glare around the chandelier. and left great chunks of gloom along lighting is to get plenty of light in all parts of the room, without too

economical lamp yet discovered.' "And then he went on to tell how it was made. It seems that most of the light rays go to the ceiling and are then deflected to all parts of the room, giving a soft radiance that makes every object in the room look its best, while other rays go directly downward through a glass disc, giving an increased intensity for reading or working."

much anywhere. This new system.

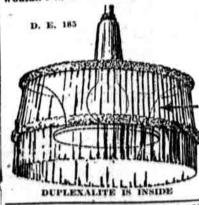

called the Duplexalite, does that. It

has made it possible for the first time

to use in the home the Mazda C lamp, which is the most efficient and

To cut a long story short, my husband made some inquiries the very next day. He found that Duplexalites had long been used in several of our leading retail stores and in the best hotels and were even going to be installed in his own office. He also found that in the home they could be used with beautiful shades of silk, cretonne or parchments and so can be made to harmonize with any decorative scheme in any room, no matter how elaborate or how simple.

And when we found that an electrician could put up four or five Duplexalites in an hour, that settled it. The upshot of it is-that for less than \$100 we have succeeded in actually doing our home over, without repapering or repainting a single room, or buying a stick of furniture -just by changing the lighting. And, as they say in the movies, "You wouldn't know the old place now."
