

IRELAND'S UNREST IN ACUTEST STAGE

Government Blamed for Failure to Round Up Leaders of Recent Disorder

BRITISH RULE "MENACED"

By the Associated Press
Dublin, April 6.—Opposition to the government never has been so general throughout Ireland as it is today. Some critics protest against the severity of the military regime, but their attacks are met by demands from others who assert that steps taken have not been sufficiently drastic and that measures intended to be coercive have failed on their object.
Inability to discover leaders of recent disorders and failure to gain information as to plans for raids in future have resulted in sharp criticism. Government agents are apparently often victims of misinformation, and some military raids seem to have been based on data given by persons who are desirous of embarrassing the administration. From time to time raids result in the capture of arms and ammunition, but

very often the soldiers take only quantities of seditious literature.
Subscribing to the Sinn Fein loan, according to a ruling of two magistrates in county Wexford, is an "attempt to overturn the king's government." A wealthy farmer who had bought Irish republic bonds for £25 was brought into court and, as he refused to give bail for good behavior, was sent to jail for three months. Some Catholic bishops have subscribed for these bonds, but they have done so by sending their money to America.

London, April 6.—(By A. P.)—A dispatch to the London Times from Dublin says that two morales are generally drawn from Saturday's incidents in Ireland, first, that the Republican movement has become a really serious menace to British authority in Ireland, and, second, that the government must devise a better method of combating the campaign of crime. The dispatch says the brains of Dublin Castle are being outwitted at every turn by the brains of the revolutionary movement. According to the dispatch, the damage resulting from the destruction of barracks aggregated a loss of 50,000 pounds sterling. Some of the barracks contained much personal property belonging to policemen and their families. A strong force of troops and police in an armored car visited the National alive quarter in Belfast Monday and arrested six men, but it is understood prominent Sinn Feiners who were sought escaped.
The dispatch asserts that about eighty prisoners, including those convicted under the defense of the realm act and others against whom no charges have yet been made, started a hunger strike in Mountjoy Prison, Dublin Monday, and also that several political prisoners in the prison hospital refused to accept food.

BEWARE OF POLAND, LENINE DECLARES

Warsaw Doesn't Know Its Own Mind, He Tells Communist Convention

CITES PEACE BIDS RECEIVED

By the Associated Press
Moscow, April 6.—Premier Lenin, addressing the ninth convention of the Communist party, in session here, outlined peace proposals received by the Bolshevik government, restated some of the principles for which he said the soviet republic stood and revealed some concessions to the former governing classes.
"We are undergoing the same experience, and must have capable people who understand technique and administration. We must draw them from the former ruling classes while preparing proletarian workers for administrative positions. A most difficult problem requiring the entire strength of the nation confronts us. We have been victorious along the battle front, but a still more important bloodless victory must be won."

declared, history has shown that when the change from a feudal to a bourgeois government was made the latter availed itself of administrators from former governing classes.

Tremendous applause greeted the ad-

dress. All approaches to the opera house, where the convention is being held, are carefully guarded. The square in front of it has been cleared and is under patrol by cavalry units.
Reports received relative to coal mined in March are said to be encouraging. Many soldiers have been sent to the mines, but men having technical experience are badly needed.
\$100,000 Fire Loss in Easton
Easton, Pa., April 6.—(By A. P.)—Fire last night destroyed a large graphite mill of T. P. Kelly Co., New York, at Stockertown, near here. The loss was more than \$100,000.

FRANCE GETS THE EMDEN

Details of Distribution of German Warships Announced

Paris, April 6.—(By A. P.)—Particulars of the distribution of enemy warships among the Allies have just been published here. France's share, which is 10 per cent of the total ton-

nage of all the captured enemy ships with the exception of submarines, represents 92,000 tons, half of which is in German ships and the remainder in Austrian vessels.
Five cruisers and ten destroyers are allotted to France and the same number of cruisers and destroyers to Italy. Each of these two powers will also receive a light cruiser and three destroyers

which may be used for a year for experimental purposes, but must be destroyed when that time has elapsed.
France will receive the cruiser Emden. Forty submarines now in French ports are also allotted to France, and of these ten may be put into service. France is the only power to which the privilege of using captured submarines has been granted.

The Birth of Bond Bread

A committee of well-known local women, including domestic science experts, selected the home-made loaves from which Bond Bread was patterned.
Then expert bakers in our clean, sunlit bakeries copied the taste—the appearance—the nutrition of those home-made loaves.
Bond Bread was the result.
Yet with all their skill and science, these bakers could never have matched the quality of home-made bread without the purest of home ingredients.
You will find these ingredients listed (and guaranteed by Bond) on every wrapper.
