

ROTARIANS BOOST AMERICAN IDEALS

Real Citizenship Is Keynote of Convention—Socialists and Other Radicals Scored

"GOOD TIME HAD BY ALL"

By a Staff Correspondent
Scranton, April 9.—Rotary means applied Americanism—the highest type of Christian civilization in the world, said B. Frank Harris, of Chicago, Ill., in sounding the high note of the sessions of the fifth district conference of International Rotary Clubs, which closes here this afternoon.

unity for both the constructive and the good fellowship sides of Rotary to show themselves. At the morning and afternoon sessions in the Y. M. C. A. auditorium the delegates heard a collection of hot shots on practical Americanism and Rotary ideals. But in between and afterward they and their wives had a regular Rotary good time at luncheon and at the dinner and dance at the army in the evening.

Haven't Missed a Bet
President Harry Jordan stated for immediate release that not one of his party of Philadelphia Rotarians had overlooked a bet and that they were all enjoying every angle of the conference.

In speaking of "the one best thing our club has done this year," C. H. Sasman at yesterday's afternoon session told of the successful "cross-at-crossings" campaign which the Rotary Club had conducted with the co-operation of other organizations and industries in Philadelphia. His account of the good results of the work was heard with cheers and applause by the other Rotarians of the district.

ville that was good enough to get a "big-time" laugh out of Harry Jordan himself.

Raps Radical Theories
B. Frank Harris, who is chairman of the international committee on business methods, was cheered to the echo at the morning session when he took a series of hard cracks at socialism, public ownership and the closed shop. He was cheered again when he pointed out that by straight thinking and talking on American lines the Rotarians had their great opportunity to be leaders in the correction of the troubles of the present day and lead the way toward a true, clean Americanism of the future.

"Public ownership means political possession of industry and the opportunity to snubbing all the rest of us," he said, "and it leads toward socialism and the soviet."

nority that will shape the public opinion of this country and give that leadership of which we stand in such dire need today. I repeat the old cry, 'God give us men.'

John N. Dyer, of Vincennes, Ind., first international vice president, speaking at the afternoon session, declared that the international establishment of Rotary Clubs would be stronger and more useful than any League of Nations that could be formed.

He also paid high tribute to the work of Guy Gundaker, of Philadelphia, chairman of the international publicity committee, as one of the great efforts that has been responsible for the remarkable progress of Rotary.

lar presidential election spirit is being shown by their backers.

The 500 ladies of the conference were taken for automobile rides about the city yesterday morning and afternoon, stopping for tea at the Country Club in the late afternoon.

The Philadelphia delegation will head home at 3 o'clock this afternoon on a special train which will arrive at the Reading Terminal at 8:15 o'clock this evening. If the party has collected any more Rotary spirit than it had on the way to Scranton, the trip ought to break some records.

New York, April 9.—Hector Havemeyer, grandson of the late William F. Havemeyer, founder of the sugar refining firm of that name, was revealed as the defendant in an action for \$100,000 damages for alleged breach of promise to marry by a complaint filed yesterday.

The complainant is Harriet Hearn, a former manicure in the Grand Central Terminal, who alleges that Mr. Havemeyer, whom she says she first met under the name of "Palmer," installed her in rooms in the Hotel Richmond, visited her daily and promised to introduce her into society and take her on a trip South before she learned that he was already married and had a child.
