Ex-Premier of Poland Changes His Mind About Resuming Musical Career

**BOLSHEVIK PARLEY APRIL 17**

By the Associated Press  
Geneva, April 12.—Ignace Jan Paderewski, formerly premier of Poland, will resume his duties as a member of the Polish Diet at the special request of the Poles. M. Paderewski made this statement to the Associated Press yesterday.

The date of the return of M. Paderewski to Poland has not been definitely settled, but probably it will be at the beginning of May. M. Paderewski had intended to retire from public life and devote himself exclusively to music, but changed his mind recently.

Moscow, April 12.—(By A. P.)—In an address to the Congress of Russian Trades Unions, Nikolai Lenine, the Bolshevik premier, declared the complete elimination of capitalist tendencies was contingent on education of the present classes.

He said large groups of peasants constitute a "petite bourgeoisie" in which such instincts are still alive. He declared that consciousness of their new social status was hindered among the agricultural population by their lack of education, and that one of the greatest tasks was the enlightenment of the peasants and organizing them along the same lines as the industrial masses. Lenine appealed to the unions to aid in the work of rendering absolute a dictatorship by the united proletariat.

Electoral Reform Bill Passed  
Copenhagen, April 12.—The electoral reform bill has passed both chambers. Elections have been fixed for April 22.
