

FIX N. J. UTILITIES HEARING FOR MAY 3

Governor Agrees to Postpone Trial of Commissioners Until Legislature Adjourns

WITNESSES NOT PRESENT

Trenton, April 14.—Proceedings brought by Jersey City to oust the present members of the Public Utility Commission for alleged official misconduct and neglect of duty will not be argued before Governor Edwards until the legislative session has come to an end. This was agreed upon yesterday when the hearing before the governor fixed for yesterday was adjourned until May 3. Suggestion for the adjournment was made by George L. Record, counsel for Jersey City, who based the request upon several grounds. He said his associate, Marshall Vancic, was engaged in court, while he had been unable to obtain the presence of two witnesses in behalf of Jersey City. These were M. L. Cooke, director of public works of Philadelphia during the Blankenship administration, and Prof. E. W. Bemis of New York, an expert who has represented municipalities in numerous similar proceedings. None of the commissioners appeared personally before the governor though all were represented by counsel. L. Edward Herrmann appeared as counsel for the entire board; V. C. Palmer, of Mount Holly, was present to care for the interests of Commissioner Knight; Leslie Streybe appeared for President Slocum and Commissioner Gaal, and William I. Lewis appeared for Commissioner Wright. Counsel entered no objection to the postponement, but announced they would prepare to proceed with the hearing. Explaining the procedure to be followed, Mr. Record said he proposed to substantiate the charges of Jersey City by proof. Some of the charges, he said, were susceptible to prima facie proof and most of them could be substantiated by the records. Some, however, would require testimony, and Mr. Record proposed to attack the work done by Dugald C. Jackson, of Boston, expert for the board in appraising the property of the Public Service Corporation. He said he proposed to show by proof what any public utility commission should have done in the interest of the public.

BOOZE CHARGE AT ALBANY

Senator Alleges Whisky Was Used to Unseat Socialists

Albany, April 14.—Charges that liquor was used in great quantities to influence votes to unseat the five Socialist assemblymen were made in the Senate yesterday by Senator George F. Thompson, of Niagara. Senator Thompson's accusations were voiced in the course of the debate on the passage of the bills recommended by the Lusk committee, which investigated radical activities. When the Senate reconvened last night, Henry Walters, majority leader, announced that he intended to move that Senator Thompson's remarks be expunged from the record. The Lusk bills passed are designed to provide that the attorney general be authorized to establish and maintain in his office a bureau for the investigation and prosecution of alleged violations of the law against criminal anarchy. That the education law be amended so as to require school teachers to take an oath of loyalty to the constitution of the state and nation before they can qualify as teachers. That private educational institutions be licensed by and under the supervision of the state board of regents. This bill is aimed at such institutions as the Haud School of Social Science.

Levy for Sewage-Disposal Plant

Haddonfield, N. J., April 14.—The board of commissioners here reported an ordinance providing for the payment of the proposed new sewage disposal plant, to cost \$75,000, by general taxation and passed an ordinance providing for the amount to be assessed against the property owners who will benefit from the improvement.

CHANGES ADVISED FOR CONSTITUTION

Francis Shunk Brown Tells Revisers Superior Court Is Not Well Treated

Harrisburg, April 14.—Caution in making the phraseology of the new constitution clear, elimination of the word God from the constitution and voting machinery for members of the Legislature for the passage of bills, were urged by speakers at the public hearings before the constitutional revision commission. Francis Shunk Brown, former attorney general of Pennsylvania, gave the commission much advice. He defended the lower court judiciary, of Philadelphia, in the matter of making appointments, and criticized the Supreme Court for its decision against the anthracite coal tax. In this connection he suggested the Governor be empowered to ask opinions from the state's highest appellate court on important legislative matters before being called upon to act on measures. Mr. Brown pointed out the section relating to the Supreme Court provides that members shall not be eligible to another term, while the section referring to the Superior Court says the members shall not be re-elected. He said the commission probably meant to treat both courts alike, but that in the case of Superior Court justices there would be nothing to prevent a re-appointment. Kenneth L. M. Pray, secretary of the Public Charities Association, advocated the proposed plan of making charitable appropriations, but said these should be gradually reduced until they disappear. Dr. George Woodward, president of the Children's Aid Society, Philadelphia, said that state aid reduced private charitable donations. T. M. Hresman, Philadelphia, advocated provision for the passage of garnishee laws and Lawrence H. Rupp, Allentown, spoke in favor of a provision permitting the creation of new counties, and brought up the old "Haze County" question originating in Luzerne and northern Schuylkill counties.

VIZIER APPEALS TO ALLIES

Asks Aid in Policing Constantinople While He Fights Rebels

Constantinople, April 14.—(By A. P.)—It is reported that the Imperial Prince Dinal Eddine Pasha, son of Schaher Pasha, has been designated by Mustafa Kemal, the Nationalist leader, as Viceroy of Anatolia. The Grand Vizier, Damad Ferid Pasha, has advised the allied high commissioners that the government is making every preparation to suppress the rebels, and wishes to use the local gendarmerie and police, as well as local troops, against Mustafa Kemal. He requests the allies to supply troops to police the city.

Beauty and Sturdiness
EVERY horticultural product of the Keystone Nurseries is noted for its beauty and sturdiness. Careful cultivation, plus years of experience, gives each tree, each shrub, a grace and symmetry that marks it as a perfect specimen. B. F. Barr's products draw their rugged qualities from the soil of the richest agricultural county in America. You can depend on them. Make your selection from a complete stock of Norway maples—sizes from 8-10 feet to the big fellows that give immediate shade—four-inch caliper; Elms; American Lindens; Pin Oaks; many forms of shrubs; and Evergreens—Koster's Blue Spruce, Oriental Spruce, and a long list of others. Our Landscape Engineering Department is at your service to offer suggestions, or sketch your grounds and draw up a complete planting plan for you. Write for copy of our big new profusely illustrated catalog. We will send it by return mail.

WRITES TO JERSEY VOTERS

Frelinghuysen Says He Will Favor Candidate They Want

Washington, April 14.—Senator Frelinghuysen, of New Jersey, candidate for delegate-at-large to the Republican national convention, has issued a letter to the New Jersey voters, setting forth his position. After declaring for a common-sense candidate for President who will be a leader, yet not a dictator, Senator Frelinghuysen says: "If the Republicans of New Jersey decide to send me to Chicago, I shall go there to support a platform and a candidate which will stand for such a change in government and in policy as I have suggested. I propose, however, to carry out the people's will, not my own. If they express a preference for General Wood at the primaries I shall, in the event of my election, vote for him so long as he is a candidate before the convention. If the people declare for some other I will comply with their wishes. I desire to know how the Republicans of New Jersey wish me to vote at Chicago. Their will manifested at the primaries will be obeyed by me."

STATE HIGHWAY BIDS MADE

New York Firm Wants \$1,983,957 for Work in Lyncoming County

Harrisburg, April 14.—The first bid to be made above a million dollars for a state highway construction contract was submitted by H. S. Kerbaugh and R. G. Collins, Jr., of New York, for building 52,478 feet of road from 18 to 22 feet wide in Jackson, Lewis and Coganhouse townships, Lyncoming county. The firm bid \$1,983,957. A Wilkes-Barre firm bid about \$75,000 higher. No bids were received for work in Crawford, Fayette, Indiana, Luzerne and Tioga counties. Bids running into hundreds of thousands of dollars were made for work in Beaver, Delaware, Huntington, Mercer, Lawrence, Schuylkill, Warren and Westmoreland counties. No action was taken yesterday.

Barreled Sunlight

Increases daylight 19% to 36%

WHAT happens to the sunlight after it enters your factory windows? Is it wasted? Do your ceilings and walls absorb sunlight instead of reflecting it? Covered with flat finish paints, ceilings and walls collect dirt instead of reflecting it. When soiled they cannot be washed clean. In a short time, therefore, their reflecting power is greatly diminished. Yet the same ceilings and walls covered with **BARRELED SUNLIGHT** will increase the daylight in your factory 19% to 36%. Actual tests assure this. **BARRELED SUNLIGHT**—the OIL paint with a glossy tile-like finish—reflects ALL the light that enters your windows. Moreover, it will retain its reflecting efficiency for years. **BARRELED SUNLIGHT** (The Rice Process Mill White) is the ORIGINAL Mill White. It contains neither varnish nor lead. Its high gloss surface resists dirt and may be washed clean like white tile. It is of durable, elastic composition; it can, therefore, expand and contract with temperature changes. It withstands the shock and jar of heaviest machinery. **Remains white longest** Applied on the ceilings and walls of your factory it will remain white longer than any other mill white. This we guarantee. Moreover, although its price per barrel is slightly more than that of other mill whites, its actual cost per square foot of space covered is less. Its extraordinary covering power and ease of application save 16% to 21% of the cost in paint and painter's time. In more than 6,000 plants, artificial lighting bills are decreased, daylight working hours increased, by the use of Barreled Sunlight. Sold in barrels, also in cans. May be applied by brush or spray method. Write today for our illustrated booklet, "More Light." **U. S. GUTTA PERCHA PAINT COMPANY** Providence, R. I.

FOR THE HOME
There are rooms where white ceilings, walls and woodwork are practically fitting, such as the kitchen, nursery and bathroom. Barreled Sunlight makes rooms bright, cheerful and sanitary. It is cheaper than enamel and easier to apply. Sold in gallons, half-gallons, quart, pint and half-pint.

You are welcome

To a 10-Day Tube of Pepsodent. Send the coupon for it. What it does for your teeth it will do for others in your home.

For Children's Sake

Test this new teeth-cleaning method

All statements approved by high dental authorities

Children's teeth are most important. Their whole lives will be affected by bad teeth. And rarely a child, under old methods, has escaped tooth troubles. Glistening teeth appeal to adults, but with children the great question is proper tooth protection. Judge what this method means to children by what it does for you.

The enemy is film
Dental science has discovered that the teeth's great enemy is a viscous film. You can feel it with your tongue. Film clings to teeth, enters crevices and stays. Then it discolors—sometimes tartar forms. And that film causes most tooth troubles. It is that film-coat which discolors—the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also many other troubles are now traced to them.

Brush is inadequate
The ordinary tooth paste does not dissolve film. A soapy tooth paste even makes it more viscous. So the tooth brush has failed to end film. Millions know that well-brushed teeth discolor and decay. Tooth troubles have been constantly increasing. So dental science has for years sought a way to combat film. Now that way is found. Able authorities have proved its efficiency by careful clinical tests. Dentists have watched its results for years. And now leading dentists all over America are urging its daily use. A new-day tooth paste has been developed, called Pepsodent. It meets every modern requirement. And this new film combatant is now embodied in it.

Applies a digestant
Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Watch teeth whiten
The results of Pepsodent are evident and quick. Your mirror will soon show them. Then you will realize that those whiter teeth mean cleaner, safer teeth. Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. It will be a revelation. Compare your teeth now with your teeth in ten days. Then judge the method which is best for you and yours.

Millions now talk Pepsodent
Millions of people are now using Pepsodent. You see them everywhere, and you can know them by their glistening teeth. These users, plus thousands of dentists, are fast bringing this new method into general use. Make your own test now. It is highly important. Cut out the coupon so you won't forget.
