

MAYOR INSPECTS 'L' LINE TO FRANKFORD

Aviator Will Take Birdseye Photograph of Transit Situation in Rush Hour

URGE DIVERSION OF LOAN

Mayor Moore today inspected the route of the Frankford elevated in company with Transit Director Twinling and City Solicitor Smyth.

The official party left City Hall about 10:30 o'clock this morning, proceeding to Front and Arch streets and then northward along the line of the "L" to its proposed northern terminus at Bridge street, Frankford.

Mr. Moore wanted first-hand information of present conditions along the route. The tour was a preliminary to a definite plan for completion and operation of the high-speed line.

A "birdseye" view of traffic congestion in the central business district will be obtained today by the Transit Trust Co., when a former army aviator will take photographs from an airplane.

If weather conditions permit, the flight will be made during the rush-hour period, with the plane passing over City Hall at 5:18 o'clock this afternoon.

The views will be taken along a vertical line of sight at an elevation of about 3000 feet. The camera shutter will be synchronized with the propeller so the resulting pictures may be pieced together into what is known as a mosaic map.

The map will show the position of every street car, automobile and other vehicle in the area. The P. R. R. asserted the views will show traffic engineers the conditions over the entire business district at one particular time, giving, as far as possible, the measure of the relative congestion and amount of traffic.

Diversion of part of the \$25,000,000 loan authorized for the Broad street subway to the Philadelphia Rapid Transit for equipment and construction of more surface lines is urged by the Mayor's transit committee.

The diversion should be in the form of a loan, according to Colonel W. P. Barba, and would draw interest sufficient to cover the sinking fund charges. The loan would be payable whenever the money became needed for Broad street subway work.

The plan was brought up at a meeting of the committee yesterday. Steps were taken at once to determine the legality of the proposed step. If necessary it was suggested that Mayor Moore have Governor Sproul call a special session of the Legislature to endorse the diversion of funds.

John P. Dwyer met with the committee yesterday and presented the transit matter from the viewpoint of a newspaperman.

CHARLES A. NICHOLS, Republican congressman from Detroit who condemns the treatment of alleged radicals rounded up under Attorney General Palmer's orders.

Charges of Palmer Viewed as Bluff

Continued from Page One

in prison, all without formal trial and many of them without warrant—heaped up in baskets, apparently without any pretense of system," said Mr. Nichols. Without having seen the condition with my own eyes, I could never have believed that anything so un-American, so contrary to our every free institution, could exist in this country.

"It is apparent to me that a large part of the condition is the result of inefficiency and confusion. Attorney General Palmer felt that he was called on to make some demonstration against the so-called alien extremists. He selected the Communist party roster as the basis for his attack and ordered the arrest of all the communists who were aliens. It appears that no adequate preliminary investigation was made to determine the actual records or even the character of men to be arrested. They were just herded in, and then a haphazard process of sorting was begun.

Calls System Reckless

"The fact that hundreds have already been released in Detroit alone, because there was no evidence on which to hold them, is proof enough of the absolute recklessness and brutality of the system pursued.

"I presented to Assistant Secretary Post a list of 174 men still held at Fort Wayne in Detroit, forty-eight of whom never had a warrant issued against them. All 174 have been in prison three months without trial. I have demanded the immediate disposal of all of these cases, either by trial and deportation or by release of the men. Mr. Post has promised that they will be taken up at once.

"The situation is reaching the point where Congress is likely to be asked to investigate the anti-radical activities of the administration, the disagreement between the Departments of Labor and Justice, Palmer's miscellaneous raids,

apparently without investigation and without warrant, and his recent propaganda with regard to the radicals in the railroad strike.

Unless Mr. Palmer convicts some of the numerous enemies of society that he knows about, if he really does nothing about this latest revolution he has discovered, people here are likely to find out the reason why.

MOVE TO IMPEACH POST IS HALTED

Washington, April 15.—(By A. P.) Plans for introducing a resolution

in the House today looking to the impeachment of Assistant Secretary Post, of the Labor Department, for his attitude toward deportation of radicals, went suddenly awry when the House met today and the resolution prepared by Representative Hoch, Republican of Kansas, was withheld at the request of Republican Floor Leader Mondell.

Speaker Gillette had arranged to recognize Representative Hoch for the introduction of the resolution and called on him twice for the purpose. Hoch, however, withheld his resolution and Mr. Mondell announced that the Republican leaders wanted to study it further. Hoch said he would introduce it later.

LETTS NAME PEACE TERMS

Demand That Soviet Russia Pay War Indemnity

Kovno, Lithuania, April 15.—(By A. P.)—The Lettish legation here announced today the conditions on which

Lettia is willing to declare peace with Soviet Russia. The terms comprise a number of strategic guarantees, a war indemnity of a couple of billion rubles in gold and the return of all railway material and bank securities which were carried off by the Bolsheviks, or, if this is impossible, compensation to the amount of 1,000,000,000 rubles.

Lettia further demands a portion of the Russian gold reserve, which is said to amount to 27,000,000,000 rubles, as an offset to taking over her portion of the Russian public debt as it stood before bolshevism came into power. The Lettish Government also asks considerable railway and forest concessions.

Pennsylvania VACUUM CUP CORD TIRES

Not High Priced

DEALERS tell us that many people infer Vacuum Cup Tires and "Ton Tested" Tubes are high priced, assuming that quality and high prices naturally go together.

To the contrary, they are very moderately priced, due to a perfected factory organization operating in a plant utilizing every modern improvement and practical labor saving device, and marketing under an independent zone selling system which makes possible highest quality at economy prices.

Compare these prices—standardized net and uniform throughout the United States—with those of ordinary makes. Pay no more for Pennsylvania products—do not expect them for less.

Adjustment basis—per warranty tag attached to each casing:

COAL FAMINE THREATENED

Partial Shutdown of New England Industries Looms

Boston, April 15.—(By A. P.)—A serious shortage of coal for New England's railroads and industries threatened today to necessitate early curtailment of all passenger schedules and a partial industrial shutdown. Coal stocks of the railroads were said to be sufficient for only four or five days of normal operation. Industries suffered through curtailment by the railroads of commercial coal in transit with no replenishment of their bins in sight.

The Home You Are Unconsciously Seeking

We are interested in people who want all the comforts of a city without its attending discomforts.

We are desirous of meeting people who want clean, fresh air that blows from a picturesque sea flanked with miles of boardwalk that was built for their pleasure and entertainment.

We have been planning and working for people who are looking for a Home that will satisfy their every wish.

To all of these people we extend an invitation to visit or inquire about the houses that the General Improvement Company is building on the Atlantic City front building on Jackson Avenue and Vassar Square, the first two streets in Ventnor.

The first-floor plan has a spacious porch, comfortable living room, dining room, kitchen, maid's room and lavatory, and a bathroom. The second-floor plan has four bedrooms and two tiled baths. It is finished in mahogany with white trim. The floors throughout are oak and of hardwood and the roof is of black slate. There are, in addition, many conveniences that show the houses have been planned with care.

The price, not subject to change, is \$14,000. For the larger house, with six bedrooms and three baths, the price is \$19,000. For further particulars visit or write the following firms, all located in Atlantic City:

C. J. Adams Company Law Building
General Realty Co. Ruffo Corporation
Guarantee Trust Bldg. 2104 Atlantic Ave.

83rd Anniversary Sale

The Sale closes Saturday night, April 17. Scores of desirable lots at special prices will be found in every department—Underwear, Hosiery, Sweaters, Silks, Woolens, Cottons, Laces, Trimmings, Handkerchiefs, Linens, Notions, Neckwear, Infants' and Children's garments, Corsets, Lingerie, and many others. CHARGE DELAWARE BOY SLEW FATHER

Aged Farmer's Throat Cut. Body Placed in Path of Fast Train

OFFICERS HUNT FOR SON

Special Dispatch to Evening Public Ledger

Georgetown, Del., April 15.—Oliver Morris, twenty years old, is suspected of cutting the throat of Derrick Morris, a Millsboro farmer, seventy-eight, whose dead body was found last night by a train crew on the railroad track near Millsboro. Officers are now in search of the son. The boy had quarreled with his father for some time, it is said, and had left home to work on an apple farm.

The son came home yesterday. He worked until about 5 o'clock. The two were seen driving along the road just before the murder, and it is charged that the boy timed the train carefully so that he could get to the railroad about the time the night train came along. It is supposed that he cut his father's throat there.

The carriage was drawn across the track as the train swept on toward it, but the engineer was able to stop before it was hit, when the crime made the gruesome find of the dead man. The son has not been seen since.

Young Morris and his father had been having many quarrels since last fall, it is said, when Oliver's infatuation for a much older woman greatly displeased the aged parent.

P. R. R. to Lower its Tracks

Burlington, N. J., April 15.—Managers will no longer be compelled to leap-frog in crossing the Pennsylvania Railroad tracks at Broad and High streets.

To be sure the Ice Cream is right, buy of the dealer who displays the sign—

QUALITY AND VALUE

Electrify Your Refrigerator

The woman who has Isko, The Electric Cold Maker, in her home, will be quick to tell you of its countless conveniences.

Most important, perhaps, is the fact that it eliminates the need of ice by making cold electrically.

And the cold Isko makes is clean and dry and constant. Germs cannot live in it, food is protected and kept fresh in it day and night, summer and winter.

Isko makes convenient ice cubes for table use, freezing pure drinking water for this purpose.

Call and see Isko demonstrated. You will want it for your home. Immediate deliveries are being advised, for hot weather demands may mean delays.

Isko also comes in larger sizes, for hotels, clubs, restaurants, markets and other commercial uses.

Our illustrated booklet, "Refrigeration Without Ice," tells the story of Isko. Sent upon request.
