First of all, it would make more remote the building of the fast underground line which is the one great crying need of the local transportation It would tear the heart out of the Taylor scheme for rapid transit. It is a proposal to do something which is clearly the function 'and duty of the P. R. T. itself. The poverty of the company is hardly excuse enough to warrant the city in undertaking to finance its surface operations so long dent. Congress, indeed, hasn't time to as it continues to pay nine or ten millions a year out of the car riders' pockets to its underlying dead comsanies whose reptals are the real cause of its plight.
