

COMMITTEE O. K. FOR SCHOOL PROBE

Joint Body of Citizens and Board
Members Want Finegan to
Direct Survey

TO ARRANGE CONFERENCE

Decision to make a survey of the schools of this city under the direction of Dr. Thomas E. Finegan, state superintendent of public instruction, was made yesterday afternoon by the joint school survey committee at a meeting at Wannamaker's.

The committee is composed of six representatives of civic associations and six members of the Board of Education.

After some discussion as to the advisability of having the survey made by the State Department or by a private agency, the committee unanimously agreed to accept the offer made by Doctor Finegan and appointed Franklin N. Brewer, as chairman, to arrange for a conference with the state superintendent.

The acceptance of the state offer marked the end of a long struggle and accomplished the purpose of a motion originally introduced in April, 1918, at a meeting of the Board of Education by Joseph W. Catharine, asking that a survey be made.

Citizens Raised Money for Work

Following the action of Mr. Catharine, the Board of Education announced that there was no money available to undertake the work. Accordingly several prominent citizens got to work to have the estimated expense of \$20,000 underwritten. They appointed a committee, consisting of Franklin N. Brewer, Mrs. Edward Biddle, Joseph H. Hagelorn, Walter Leo Rosenberger, Franklin Spencer Edmonds, and Bruce M. Watson, to do the work and to act with a similar committee from the Board of Education, consisting of Judge Dimer Beeber, Simon Gratz, William Rowan, Walter George Smith, Franklin Smalley and Thomas Shallock, all of whom, except Thomas Shallock, who is ill, were present at the meeting yesterday.

Just as the total amount was underwritten an offer was made by Doctor Finegan to have the State Department undertake the work without expense to the local authorities.

The members of the committee expressed themselves at the meeting yesterday as being entirely satisfied with the offer of Doctor Finegan, pointing

out that should the state make the survey it would be done thoroughly and would mark the beginning of a great program of advancement for the Philadelphia schools.

Want Survey to Start by May 15

A resolution as passed by the joint committee read as follows: "In the judgment of all the members of the joint survey committee, it is desirable that the Board of Education should invite Doctor Finegan to make a survey of the schools of Philadelphia, which he has offered to do without expense to the board or to the citizens of Philadelphia.

"The committee pledges to Doctor Finegan all assistance it can give him in this work and will be glad to meet Doctor Finegan at such time as may be found convenient to him.

"The committee expresses the hope that the actual beginning of the survey of the Philadelphia schools may be no later than May 15; and its completion not later than November 1, with final report not later than December 25, 1920.

"The chairman of the joint committee is requested to arrange a meeting between Doctor Finegan and the committee."

Interchurch Campaign Posters Out

Ten thousand posters illustrating the appeal of the Interchurch World Movement in behalf of the American boy, girl and home will be placed in as many stores during the next two days. The posters have been produced by American artists.

FEWER PERSONS SUE CITY

Only 88 Damage Actions in First Three Months of 1920

There has been a big decline in damage suits against the city.

During the first three months of the present year there were only sixty-eight suits brought, as compared with 101 during the same period of 1919.

A general campaign of repairs, especially on streets traversed by automobiles, is largely responsible for the drop in damage claims.

The falling off in new cases in Court No. 2 is the most remarkable of all. The other four courts have managed to maintain their general average of eight or nine for the three months, but in Court No. 2 there were only thirty new suits in the first three months of this year, while in the first three months of 1919 there were fifty-three new suits.

In January, a respectable average of twenty-two cases was carried in Court No. 2 and that compared favorably with the twenty-six cases begun in January, 1919. But in February and March and in the first fifteen days of April a grand total of eight cases was all that was taken into that seat of justice. In the same period of 1919 twenty-seven suits were begun.

The Indian's Feather

There is an old story of an Indian who heard that the white man slept on feathers.

So he got him a feather and, after attempting a siesta, declared, "white men all damn liars."

Even today there are firms who expect an immediate deluge of new business from their first few advertisements.

As a matter of experience, the real evidence of large return does not show until after the third or fourth year of advertising the average commodity.

The occasional spectacular instance of immediate advertising success is talked about and written about until it is sometimes considered as a precedent.

Common sense should make you realize that the world is not palpitating in its eagerness to adopt the newest phonograph or the newest potato flour or the newest anything.

People, as a mass, are conservative, and it takes time to move a mass.

Some great advertisers have been working on this mass for half a century—profitably.
