

"Built Like a Skyscraper"

Jump hard—right into the drawer! It won't break—it won't spring. You can open and close it as smoothly and silently afterwards.

SHAW-WALKER STEEL LETTER FILES

**ANNOUNCING
THE NEW
SHAW-WALKER STORE**

We take pleasure in calling to your attention the opening of our new store at 1010 Chestnut Street. We are now located on the main floor of this building and invite you to visit us and see the complete Shaw-Walker line of filing cabinets in steel and wood and indexes for all files.

BUILT like a skyscraper because they have a skyscraper framework of channel steel—uprights, cross pieces, girders, etc. And solid steel walls, too.

But they go the skyscraper one better. There are no nuts—no bolts—no rivets—no rods—no screws. Instead—electric welded into one solid, unbreakable unit.

The drawers are built like a skyscraper, too. And they work like magic—"coast" in or out at a touch. Will run silent, smooth and speedy for a hundred years, if need be.

We say "Your money back if they're not the best files you ever saw."

Put one into your office alongside your old files. You will quickly see why we say it.

Phone us to send you a Shaw-Walker file today.
