National Council of U. S. Commerce Chamber Approves Nation-Wide Drive

PLAN TO END UNREST

Atlantic City, April 26.—A movement to have the Chamber of Commerce of the United States assume the supervision of all Americanization work in the country with a view to uniformity and the speeding up of efforts to make loyal citizens out of thousands of workers peculiarly subject to the doctrine of unrest, has been submitted to the national convention of the American chamber which started its preliminary sessions here today.

PHILADELPHIA BOURSE'S PLAN

A resolution framed by the Philadelphia Bourse is among the measures prepared for consideration of the chamber which comprises more than 1,300 trade and commercial organizations represented by nearly 5,000 delegates to the convention. It is as follows: "We urge the enactment of federal and state legislation which will declare operating employees of public service corporations to be public servants and as such not free to leave the service simultaneously or approximately so, or at any time, except upon due and sufficient notice; and which will also forbid the corporations discontinuing operation by 'lockouts' or similar methods."

Moyer Laughs at Strang's Story

Continued from Page One. Second time, Strang answered negatively. "A second method, the witness said, was to change the date on a check, setting it ahead, and then sending the check back as improperly dated. Still a third method, described by the witness, was to question the genuineness of the depositor's signature and return the check. "Why did you do this?" asked Mr. Taulane. "We could not get enough money together to meet our exchange."

American Ideals Propaganda

The Americanization proposition in turn contemplates the creation of a standing committee of American ideals; the establishment of a department of civic development in which efforts will be made to educate citizens in the establishment of a special fund for promoting American ideals through systematic propaganda and action in cities, and the creation of a bureau of inquiry and information concerning enterprises operating nationally in philanthropic and patriotic fields.

No Danger of Food Famine

"When you hear predictions of a food famine in America you are listening to talk of the unknown," A. W. Douglas, of St. Louis, chairman of the committee on statistics, assured the convention today in a report upon the American farmer. He said: "We may not have a bumper crop, but we are not short of food. We are in need of it; talk to the contrary is absurd."

Sturgeons, Glassboro, delegates; Charles S. Boyer, Camden, and William Holman, Sharpshooters, alternate, all pledged to Wood.

Told He Told Moyer

The witness was asked how he told Moyer about this state of affairs. He answered that he had done so at least once every week and frequently had named the amount of the shortage. He was questioned at length on his detailed knowledge of the money in his own paying teller's cage. He said that at no time had there been more than \$20,000 in cash in the cage, although the report which it is alleged was made falsely by Moyer to the state banking commissioner, June 2—on which the charges against Moyer are based—stated the cash at that time to be \$65,000.

Told to "Juggle" Accounts

The witness said he had been told by Moyer to postpone balancing his cash that night until 9:30 o'clock, so as to have a balance at any one time of \$20,000. He said that he was told to "juggle" the accounts so that they would be healthy enough to stand it. To Protect Rights of Jews

The terms of the mandate protect the national rights of Jewish citizens of other countries. That is to say, a Jew of American, British, French or other nationality is not a citizen of Palestine. The rights of Arabs also are protected, there being 600,000 in Palestine and 100,000 Jews. The mandate is limited generally by what is known as the Balfour declaration.

Not Socialistic Experiment

"It can really support two or three times that number, through the introduction of the best methods of agriculture. Jews in Russia, Poland and Rumania would be glad to migrate. The plans of the Zionists are that we shall work with the hands rather than with the brain, as the Jews have been doing for the most part in other portions of the world. It will be an interesting social experiment. It will not be Socialistic, but I think it may be called so."
