A mango is an Indian tree, hearing fleshy fruit with a turpentine flavor. The mangrove is a genus of plants, which consists of trees and shrubs, all tropical and natives of coasis, particularly about the mouths of rivers. Most of the species send down roots from their branches and rapidly extend over large spaces. Some of the fruits are awest and eatable and the fuice when fermented and the futer when fermented yields a light wine. Mangroves are common in southern Florida.
