

"AMERICA FIRST" POLICY FOR SHIPS

"Unshackling of Commerce" Avowed Object of Senate Merchant Marine Bill

CUT RATES FOR U. S. ONLY

By the Associated Press
Washington, April 28.—Establishment of an America-first policy for the development of the American merchant marine is provided in a bill drafted as a substitute for the House merchant marine bill by the Senate commerce subcommittee and made public today by Chairman Jones, who plans to report it to the full committee tomorrow.

The bill provides, in part, that the United States will not always remain as "dry" as now.

He purchased the entire American stock holdings of the Milwaukee and Chicago Brewers, Ltd., an English holding company owning all the stock of the United States Brewing Co. The American holdings were said to approximate \$917,000.

Preferential Rates Limited

The bill also would prohibit the Interstate Commerce Commission from exercising authority already existing to grant preferential rail and water freight rates on exports or imports as well as passenger rates, unless American-owned vessels were used. From the board's recommendations, where American-owned ocean transportation facilities are inadequate the commission would be authorized to suspend this section. In order to permit this discrimination, the bill directs the President within ninety days from its passage to terminate treaties restricting the right of the United States "to impose discriminating duties or tonnage dues on foreign imports or foreign vessels."

In providing for the preferential rates Senator Jones declared the bill which he described as "unshackling the United States commercially," only proposed a policy similar to that under which Germany, Japan and other countries have built up their export trade and maintained their shipping.

New Shipping Board Supreme

The bill would place the present government-owned merchant fleet under the direction of a shipping board composed of seven members which would be authorized to operate the ships and develop the foreign trade of this country through the establishment of new trade

routes by means of private enterprise if possible or through government operation if necessary.

The House bill directed the board to sell the government-owned merchant ships as soon as practicable, but the Senate bill provides that they shall be disposed of "as soon as practicable, consistent with good business methods and the objects and purposes to be attained by this act."

Ships of foreign owners who are guilty of giving preferences, or rebates, or discriminating against Americans in violation of existing statutes would be barred from American ports.

Amendments to the La Follette amendment's act also are appended to the measure, designed to carry out recent Supreme Court decisions and bring foreign seamen up to American standards.

"HOPE SPRINGS ETERNAL"

Chicago Brewer Prepares for Modified Dry Laws

Chicago, April 28.—(By A. P.)—Edward Landberg, Chicago brewer, announced today he had invested a fortune in obtaining new breweries, hoping the United States will not always remain as "dry" as now.

He purchased the entire American stock holdings of the Milwaukee and Chicago Brewers, Ltd., an English holding company owning all the stock of the United States Brewing Co. The American holdings were said to approximate \$917,000.

MEXICAN REBELS TAKE GULF PORT

Defection of More Carranza Generals Is Admitted at Capital

RUSH AID TO MAZATLAN

By the Associated Press
Washington, April 28.—Advices from Mexico today state that rebels have occupied Alvarado, on the gulf coast, south of Vera Cruz, and that federal troops have been sent from Vera Cruz in an effort to regain control of the port.

Mexico City newspapers yesterday confirmed reports that had reached here of the revolt of General Cosío Rebol and General Maycotte, and announced that General Rafael Garza, at Guajaró, near Mexico City, had joined the revolution.

General Dignez, the federal commander in the Guadalajara district, is reported to have 8000 men mobilized for action in that district and the Mexican Government announces that 25,000 federal troops from Manzanillo have disembarked at Mazatlan to re-enforce the

small garrison now threatened by the Sonora troops.

Other advices received here today from official sources questioned the possibility of re-enforcements reaching Mazatlan, where the federal forces are now facing the advancing Sonora troops, numbering approximately 7000 men.

MEREDITH PRAISES BANKERS

Agriculture Chief Commends Stimulation of Business Methods on Farm

Pinehurst, N. C., April 28.—(By A. P.)—A message from Secretary Meredith, of the Agriculture Department, was read at the opening session of the executive council of the American Bankers' Association here today, it said:

"I wish to commend the bankers for active interest they are taking in agriculture. There is much that local banker can do to stimulate better business methods on the farm.

"The increased demand for food by our increasing population must be met largely by producing more per acre. Unless this is secured through adoption of improved methods the increased production will result in ever-increasing cost of production."

HUNT WORKERS FOR FARMS

Saturday in Every Week Set as Employment Day

Harrisburg, April 28.—(By A. P.)—To relieve the acute shortage of farm laborers in this state the Pennsylvania Department of Labor and Industry, through its bureau of employment, has set aside Saturday of each week as farm labor day at each of its offices.

Saturday is a convenient day for farmers to meet workers at the state labor bureau for the purpose of arranging for their hire.

Hundreds of high school boys will be placed on farms throughout the state during the summer vacation. In a further effort to supply farm laborers the bureau of employment officials expect to have the boys go into the country during June, July and August, where they can have healthful employment, wholesome food, good wages and instructive experience.

PITTSBURGH GAS & ELECTRIC FIXTURE CO.
35 N. 9th St.

RESIDENCE ON DELAWARE RIVER FOR SALE

Eddington, Bucks Co., Pa.

10-Room Residence 31 Acres of Land

The sale of this attractive property, known as the Mundy Tract, presents an unusual opportunity to acquire a home on the Delaware river at a reasonable price. The house is comfortable, has modern plumbing, two bathrooms, laundry, copper window and door screens, gas plant and water plant. It is surrounded by fine shade trees and about two dozen fruit trees.

The tract, part of which has been cultivated, includes 31 acres of land, 23 acres of which lie along the river for a distance of 1100 feet and extend back to the State Highway. The remaining 8 acres lie on the opposite side of the highway, and the two tracts together have about 1200 feet frontage on the State Highway. Good roads make it very accessible by automobile.

There are also on the property a caretaker's house, a stable, and a garage large enough for four cars.

This property is only a few minutes' walk from the railroad station, fifteen miles from the center of Philadelphia and five miles from Bristol. This short distance and the good train service on the Pennsylvania Railroad make it within easy commuting distance.

It is now offered for sale by the Emergency Fleet Corporation, and immediate possession can be given the purchaser. Inspection is invited.

Yes, Sir—There's Something in a Name

The meaning of gasoline grows when you put Atlantic in front of the word. It changes so it spells p-o-w-e-r and e-c-o-n-o-m-y, enthusiasm and gumption under the hood. None of this crack fuel loafs. It all works, and keeps on doing it. It vaporizes the instant the air strikes it in the carburetor and every atom burns. That's why it doesn't get into cylinders and crank-case or foul the vitals of your engine.

You don't need to concern yourself about the carburetor once it's set for the season. Let it alone and just let Atlantic work for you. Atlantic's range compensates for changes of climate, weather and altitude. Keep going—that's all you need care about.

Now is the time to use Atlantic quality, for good gasoline isn't to be had at every roadside. Make sure your tank is filled with virile energy drawn from the Red Pump. Auto-engines are designed to burn gasoline. And nothing will really, permanently take its place. So watch for the sign which tells you

ATLANTIC GASOLINE
Puts Pep in Your Motor
