LEGION MEN READY FOR MEMBER DRIVE

Nine Thousand Posts Throughout Nation Will Start Spring Advance May 17

STATE CAMPAIGN NOW ON

Nine thousand posts of the American Legion throughout the United States Stephen Girard Post No. 320 was started by the alumni of Girard College. The post has the use of the alumni clubhouse and has a page in the monthly periodical of the college.

The Women's Auxiliary of Post No. are called upon today to conduct what the national headquarters terms "The Spring Drive." designed to bring into the Legion thousands of members.

The drive will start May 17 and end May 22. National headquarters has labeled this period as "Membership

Forty-nine state departments will go over the ton together. In each department the state organization will be responsible for the drive within its juris. diction. Generalship and staff work will have full play, but, it will be the diving power of the regiments and companies on the city and county lines which will directly produce the new

The campaign will show the comparative power of accomplishment of

WILLIAM MANN COMPANY 529 MARKET STREET PHILADELPHIA, PA.

New York Offices: 261 Broadway. Founded in 1848

Gov. Calvin Coolidge

**CTATUTES must appeal to more than material welfare. Wages won't satisfy, be they never so large. Nor houses; nor lands; nor coupons, though they fall thick as the leaves of autumn. Man has a spiritual nature. Touch it, and it must respond as the magnet responds to the pole. To that, not to selfishness, let the laws of the Commonwealth appeal."

The fourth large printing of Governor Coolidge's book,

"Have Faith In Massachusetts"

is ready. Independent, courageous, vigorous, these remarkable public utterances represent the kind of thinking that America needs most today.

FELLOW PHILADELPHIA

FOR 10 YEARS we have been expending mone, contributed by Mr. Henry Phipps, in your interest and in the interest of all who are afflicted with tuberculosis. We have had the best available advice and have used such abilities and strength as we have to the fullest.

IN RECENT WEEKS we have tried to give you an accounting. We have appealed to you to enable this work to be continued. Your response has not yet been sufficient. You may wish to know something at this time of our plans.

We have, in the past, confined our relief efforts to one district of the city. We have formerly proposed, and now propose again, that all tuberculosis dispensary work in this city be apportioned by districts. We intend to advocate this plan, which will involve increased facilities in certain districts, and we hope to have the help of the official health departments, state and city, and the privately organized health agencies in planning the details of a workable system and carrying it into effect.

Tuberculosis among the negroes is an especially important and difficult problem. We believe it-necessary to help them to help themselves. We have tried it. It works. We know approximately what it would cost to care for the colored population of this city on this basis. We propose to help to see that the work

In closest co-operation with the Department of Hygiene and Public Health and the Department of Industrial Medicine at the University we have, in the past, studied the industrial aspects of the tuberculosis problem. War experience has increased our ability to deal with this problem. Our staff recruited and led a board of experts in the diagnosis of tuberculosis and other diseases of the chest who examined thousands of newly inducted soldiers at Camp Dix. Casual observation has taught us that the methods of group examination on a large scale, as used by the survey boards in the National Army, need to be applied at once to health reviews of the policemen and firemen, the street railway workers, the employes in the various industries,

With this in view we propose to establish a consulting service of experts in the diagnosis of early tuberculosis, available to the industries, either employers or employed, as soon as our resources in men and money permit.

In conjunction with the State Department of Health we have the nucleus of a real "health center" at Seventh and Lombard Streets. This we propose to help to maintain and to develop to the fullest possible extent.

In conjunction with the Eagleville Sana torium for Consumptives, we propose to help to maintain a hospital in which selected cases can be studied by especially trained scientific men to the best advantage. We propose to employ the men.

We have, in the past, offered post-graduate courses for nurses, social workers and doctors, covering the especial methods used in the management of tuberculosis. Before the war our courses were well attended and widely recognized as good. Abandoned during the war, we propose to revive them at the earliest

We have, in the past, conducted a small factory where tuberculosis patients were enabled to work part time. The results from the patients' point of view were admirable. Pauperization was avoided-self-respect preserved. This factory failed as a business venture, largely because the business men of the city failed to understand the project and co-operate with it. We hope to aid in a revival of this factory under more favorable auspices in the near future.

We propose to maintain, as we have in the past, a laboratory fully equipped to study the most fundamental problems of tuberculosis and other respiratory diseases; as good a laboratory as any, anywhere.

It is in this laboratory, of course, that we hope to fulfill our mission—the discovery of a cure, or a method of prevention, for tuberculosis. The other aspects of our work, valuable as they are to those they relieve, are merely pallia-

Our effort to do these things, or to get them done, will not interfere or conflict with anything that any one else wants to do and can do. Our purpose has been to do what others do not care to do, or cannot do.

We cannot do all of these things with the \$100,000 we have asked. We can continue and improve upon our beginnings of them until December 31, 1921,

Only \$26,000 of the \$100,000 asked has been subscribed. \$74,000 more is needed imperatively. Will you aid?

STRAWBRIDGE & CLOTHIER Last of the Five CLOVER DAYS To-morrow

Hundreds of Lots of Desirable Merchandise at Considerably Less Than Our Fair Regular Prices

O-MORROW, Friday, will be the last in the wonderful series of five Clover Days. Approximately a THOUSAND DIFFERENT LOTS will be shown under the famous Four-leaf Clover Signs, every one at a substantial reduction from the regular price. some cases the concession comes from the manufacturers; in many others the reductions are from our own moderate prices. This means a considerable sacrifice of the fair, legitimate profit necessary in the usual conduct of retail business. But Clover Day is an established institution, and we willingly maintain its prestige by presenting a great array of EXCEPTIONAL VALUES—not only for one or two days as in the past, but for FIVE DAYS. And TO-MORROW, the last of these, should be the greatest. The variety and values are as attractive as on the first days.

PLEASE CARRY SMALL PARCELS WHEN YOU CAN CONVENIENTLY DO SO. WE CANNOT PROMISE TO FILL TELEPHONE ORDERS FOR CLOVER SPECIALS.
