

LAWYERS OBJECT TO COURT CHANGES

Plan to Increase the Supreme Bench to Nine Members Meets Opposition

MANY EXPRESS OPINIONS

By a Staff Correspondent
Harrisburg, May 5.—Widespread objection to the proposal to increase the membership of the state Supreme Court from seven to nine members under the proposed new constitution have been voiced by prominent jurists and members of the bar in Pennsylvania as the result of requests sent out by Dr. William Draper Lewis, secretary of the commission on revision, to prominent lawyers and judges asking their views on the tentative draft of the new constitution.

approval of many judges and lawyers is that to prohibit the re-election of Superior Court judges. It is the consensus among those objecting to this section that it would be impossible to obtain good material for the bench with this limitation in force.

Judge R. C. Stewart, of Easton, and Richard E. Cochran, a lawyer of York, especially oppose the prohibition against the re-election of Superior Court judges.

Industrial Valuation

A LARGE industrial corporation required an immediate bank credit of \$2,000,000. Their bankers naturally demanded a valuation to justify the advance. Time was a vital element. Our Valuation and Report Department was asked to submit such a valuation within four days.

Within two hours after receipt of the order, 84 experts were on the job and our preliminary report was completed on time. Final investigation proved the preliminary figures within 1/2 of 1%.

Our service for industrial, mercantile, public utility and shipping enterprises is nationwide.

Upon request we will be pleased to explain it in detail.

ASIA

The American MAGAZINE on the Orient

Beautifully Illustrated—Rich Color Insert—Over Fifty Pictures

Far different is the Japan of today—a world power and advocate of free intercourse with other nations—her ships "far flung" to the world. ASIA reaches into the past of the Oriental nations you visit by giving you their traditional background so different from ours. ASIA gives their present political and trade relations. Like a seismograph it registers the rumblings of these distant folk—their spirit towards one another and towards us—their rapidly changing conditions. The pictures (over fifty each issue) are of a kind you cannot find elsewhere.

ASIA Will Carry You Away on a Magic Carpet

It will take you into lands of adventure and romance, fascinating as the "Arabian Nights." It will lift the veil of the past and the future for you into a part of the world toward which world concern in war, wealth and culture is now converging—bring you new knowledge and stimulation.

This year make a trip to the Orient through the pages of ASIA. With its vivid stories, exquisite photographs and paintings, ASIA is a broad highway into an enchanted land of beauty. Twice in the last few months, complete issues have disappeared from the news-stands, shortly after publication, leaving hundreds unable to get their copy.
