# A bargain, like time,

waits for no man Neither does an opportunity, like this sale of Du Pont Equipment, knock at your door twice

Thousands of manufacturers, in almost every industry throughout the country, among them the world's leaders in their respective lines, are buying

our surplus equipment and material. They buy for emergencies, they buy for present needs and they buy for the future.

They find our sale of surplus equipment is a revelation in economy. They find among our mammoth stocks, machinery and material in serviceable condition, ready for immediate delivery, and at prices far below their market value. That's why they have bought, in a few short months, millions of dollars' worth.

Have you benefited from our sale? Have you investigated our offerings? Surely you can't afford to pass up an opportunity like this one, when others in your trade are taking advantage of it.

No matter what industry you are in we have something you can use. And at prices that will surprise you. Only a few of the thousand and one items are listed in the coupon.

All offerings subject to prior sale.

Don't delay another day. Write, wire or telephone us what you need, or else, to save time, come personally to Wilmington or to any of our plants listed below.

## **Announcing Our** Annual Electric Washer Sale

CASY payments—a splendid, L high-grade electric washerprotection on the price-these are the features of our May Sale of electric clothes washers.

We Give

A Ten-Day Tube

Of Pepsodent to everyone

who asks. There is no reason

for not learning what it does.

Send the coupon and watch

Men's teeth discolor most

other reasons. Their film-coats generally show the greatest stain. They will

see the most conspicuous results. But

nearly all teeth have some cloudy film.

Children's teeth most apt

to decay

a child reaches 15 years with all teeth

Children's teeth decay most. Scarcely

The film-coat causes that decay. So,

when you see what Pepsodent does, be

sure that the children employ it. Life-

long effects may be prevented by it.

Some because of tobacco - some for

the results for ten days.

places one of these washers-the well-known Prima-in your home, and the balance is payable in convenient monthly payments. You actually save money by investing in a Prima, for you must pay your laundress more than you put into the Prima monthly payments.

This sale is in line with our price protection policy. The Prima is one of the best and lowest priced washers in its class. The price has not been raised for eighteen months, and we are glad to give our customers this opportunity to buy the Prima before the price advances.

> Visit the Electric Shop at Tenth and Chestnut Street - or any of the District Sales Offices listed-and have our electric washing machine experts give you a practical demonstration of the Prima washer.

# Your Mirror Tells

See what your teeth show in ten days

All statements approved by high dental authorities

The New-Day Dentifrice

A scientific film combatant, combined with two other newly-

recognized essentials. Now advised by leading dentists everywhere, and used daily on millions of teeth. All druggists supply the large tubes.

white, see what film removal does. Do what millions have done - try this new way for ten days. See how the teeth then glisten-not how clean they feel. It may bring a new dental era, both to you and yours.

If you think your teeth are clean and

#### All teeth have film

On all teeth there's a viscous film. You can feel it with your tongue. It is ever-present, ever-forming. And modern science traces most tooth troubles

Film clings to teeth, enters crevices and stays. Then, in the months between your dental cleanings, it may do a ceaseless damage.

It is the film-coat that discolors not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the tees4 to cause

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Very few people, under old methods, have escaped these troubles.

#### The brush is inadequate

The ordinary tooth paste does not dissolve film, so the tooth brush does not end it. Countless people find that well-brushed teeth still discolor and decay. Tooth troubles have been constantly increasing.

So dental science has for years sought a way to fight this film. Some time ago the way was found, and able authorities, by many clinical tests, have amply

proved its efficiency. Today leading dentists everywhere are urging its daily use. And millions have already adopted it.

The method is embodied in a dentifrice called Pepsodent - a scientific tooth paste, made to comply with all modern requirements. It combines three major factors which are new and beneficial.

### Based on active pepsin

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has evolved a harmless activating method. Now active pepsin can be daily applied, and forced by the brush where the film goes.

#### Free to all who ask

The object now is to quickly show the millions how much this method means. So a 10-Day Tube of Pepsodent is sent to all who ask,

Mail the coupon for it. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coat disappears. It will be a revelation.

Note the people who have done this. day. Try the method they use. See the effects on your own teeth. Cut out

You see white teeth on every side tothe coupon so you won't forget.

sound.
