Hon, G. E. Hamaker, chairman
Multonomah county Democratic
central committee, Portland, Ore.
I think it imperative that the party
should at once proclaim itself the
uncompromising champion of the nation's honor and the advocate of
everything that the United States
can do in the service of humanitycan do in the service of humanity; support the Versailles treaty and con-demn the Lodge reservations as ut-terly inconsistent with the nation's honor and destructive of the world leadership which it had established and which all the free peoples of the world, including the great powers themselves, had shown themselves ready to welcome. It is time that the party should proudly avow that it means to try, without flinching or turning at any time away from the

path for reasons of expediency, to apply moral and Christian principles to the problems of the world. It is trying to accomplish social, political and international reforms is not daunted by any of the culties it has to contend with. and is not daunted by any of the difficulties it has to contend with. Let us prove to our late associates in the war that at any rate the great majority party of the nation, the party which expresses the true hopes and purposes of the people of the untry, intends to keep faith with in peace as well as in war.

Entitled to Our Support

They gave their treasure, their best lood and everything that they valued in order, not merely to beat Ger-many, but to effect a settlement and bring about arrangements of peace which they have now tried to formu-late in the treaty of Versailles. They are entitled to our support in this settlement and in the arrangements for which they have striven.

The League of Nations is the hope of the world. As a basis for the armistice, I was authorized by all the great fighting nations to say to proposing peace to establish a general association of nations under specific covenants for the purpose of affording mutual guarantees of political independence and territorial integrity to great and small states alike, and the covenant of the League of Nations is the deliberate embodiment of that purpose in the treaty of The chief motives which led us to

The chief motives which led us to enter the war will be defeated unless that covenant is ratified and acted upon with vigor. We cannot in honor whittle it down or weaken it as the Republican leaders of the Senate have proposed to do. If we are to exercise the kind of leadership to which the founders of the Republic leaked forward and which they delooked forward and which they de-pended upon their successors to es-tablish, we must do this thing with courage and unalterable determina-tion.

Expect United States to Lead

The true Americanism, the only true Americanism, is that which puts America at the front of free nations America at the front of free nations and redeems the great promises which we made the world when we entered the war which was fought, not for the advantage of any single nation or group of nations, but for the salvation of all. It is in this way we shall redeem the sacred blood that was shed, and make America the force she should be in the rouncels of was shed, and make America the force she should be in the counsels of mankind. She cannot afford to sink into the place that nations have usually occupied and become merety one of those who scramble and look about for selfish advantage.
