Nancy Wynne Tells of the Hoffman Baby's Visit to Its Grand parents-She Hears of Plans for a Dance Next Week-Pony Show Today

WHO do you think is visiting the Sullivans out at their place in Radner? None other than wee Albert Lincoln Hoffman. Jr., and his father. Wee Albert is eight and a half months old and a darling. Mr. and Mrs. Sullivan, who have been spending several months in town at the Ritz, opened their home, the Woods, a couple of weeks ago. Last week they went over to New York and spent a few days with their son in law, who, with the baby, returned here with them and they will be their guests until they go to Lenox or the souther.

for the summer.

You remember, the queen of Belgium is the godmother of the baby. It must be lovely to have him with them, for Leta's death ten days after his birth was dreadful blow to them all.

DO hope it will be clear today beleause there is the pony show, and dog

show and every kind of show, babies and show and every kind of show, babies and dolls an' everything. And there's to be rumage, and eats, and fancy things, and live 'sainules,' pigs and ducks, and chickens, and weeny little guinea pigs, rabbits and oh! all kinds of live stock. The baby show will be in the afternoon and the babies are so dear I just love to think I'll see them with their wee fat necks and dimpled hands and bright eyes and smiles.

I'd hate to be a judge at a baby show, because they'd be so cute and pudgy and crinkly and darling. I'd decide for them all. I know, and then what en earth would they do about the prizes?

The pony and dog show will begin at 2 sharp and the other part of the affair opens at 11. But all this is IF it is clear. There's one thing about that, theugh: you can always know by 10 a'clock, because if they decide in threatening weather to carry it through they stick to it, and if not they put it off till the next day, and that's the end of it. sick to it, and if not they put it off till the next day, and that's the end of it. Out-of-doors affairs have to be run in that way, for one cannot tell about the weather, no matter how much one thinks one knows. So IF it is clear this
