## Solid Ground

THE business that maintains this organization is the sale of NEW Peerless cars at a legitimate profit. Most sales of new machines involve an allowance for a used car. Such used cars must be ACCURATELY valued and QUICKLY resold to justify the plan.

Maintaining this "balance" is not governed by chance. Methods are based on the same great "LAW OF AVERAGE" as guides the life insurance companies in assuming their billions in risks. Seven thousand automobile dealers cooperate with us in determining what we can safely pay for a used car. And it is passed on to you without profit.

For our own protection, every car we buy is closely inspected and passed as sound by our engineering staff. An ABUSED car cannot go on our floors.

Therefore, you buy a used car here with your feet on solid ground-at the price our experts' inspection proved it was worth to us-without profit loading.

The following cars are now on our floors. They represent our best judgment in buying. It will pay you to inspect them.
