**Information
Wanted.**
Do you know of any tin-
roofed building ever being
seriously damaged by
lightning? Manufacturers
of roofing tin have never
found such a case. They
want to know if there is
one. If you know of one,
tell any roofer about it.
Of course, we don't want
rumors that somebody's cousin
heard a friend say that her
brother's partner in Ohio
had a tin-roofed shed struck
before the Civil War. We want
a definite case that you know
about yourself.
Tin roofs protect your buildings
not only from water, but
from fire and lightning too.
Why pay high insurance pre-
miums?
For roofs there's nothing
like tin—but you want the
best tin. Ask any roofer
about the best brands. If
he says NU-DURA-TIN,
you're safe.

The Salvation Army seeks to broaden its ability to help humanity.
It is making a "Home Service Appeal" for 1920. It deserves every help
—and all should help. Ability to do doesn't depend entirely on money.
But money helps greatly. Your donation will be very welcome!
