SHEETROCK WALL BOARD
Sheetrock is not only cheaper than lath and plaster but saves time and labor. It's made of pure gypsum rock, can be papered or painted as well as plaster, is stronger than wood, and won't burn, warp or shrink. Ask for sample and you'll see for yourself why the Government has used over 60,000,000 feet of Sheetrock.

Don't Blame the Roots of Your Hair—
if you are becoming bald, have dandruff or other diseases of the scalp. You, yourself, are to blame. You are not affording the roots the exercise that is as necessary for their health as for the other organs of the body.
Rador HAIR TONIC
contains nature's own energizing force, a soothingly active force that goes straight to the roots and revitalizes them. Its radio-active properties, to be found in no other hair tonic, act in a massage-like manner. The roots respond immediately, the causes for hair troubles are eradicated and a healthy growth is assured.
RADIOR HAIR TONIC for years has been featured in the best London shops. Its continued use by thousands of English men and women attests its popularity there. Used in conjunction with Rador Shampoo Powder it forms an unexcelled hair treatment.

GIMBEL BROTHERS
MARKET • CHESTNUT • EIGHTH • NINTH
For Wednesday

Philadelphia, Tuesday, May 18, 1920
During the very extraordinary Sale of Groceries that began on Monday, your full purchase may be made seated in the Order Room—doubled in size, for the occasion. All the usual conveniences of delivery where our wagons run.

This Price-Proving GROCERY SALE at Gimbels Is Far More Important Than Those Great Sales of War-Released Foods We Conducted at Our Personal Expense, Selling Without Any Marked Profit

Those sales were each made up of one to half dozen items. This price-proving sale offers scores of items. Both were based on helpfulness—both that series and this sale enabling housewives to save largely.
Any business that has prospered through public support owes a great debt to the public—is faced by a responsibility that cannot be evaded.
Far and wide has gone up the cry that foods are costing too much—that production costs are talked of chiefly as a smoke-blind to hide inordinate profits.
Is the clamor based on facts?
We shall see.
Our prices in this sale are inordinately low—no business could endure that was conducted on this present basis. "Why do it, then?" you ask.
First: To do with our might our part in lessening living costs.
Second: To see what reaction of prices will follow. If the market is sound; if recent prices have been justified, then the market will hold and sellers far and near will be purged from the accusation of profiteering. Where wrong exists, practices will change. We shall see.
15,000-Pounds Gimbels St. James Blend Coffee, High Grade, Limit 25-lbs. in 10-5 or 3-lb. Lots, at 42c lb.
20,000-Pounds Gimbels Quaker Blend Tea Room Coffee, Limit 25c lbs. in 10-5 or 3-lb. Lots, at 45c lb.
12,000-Pounds Fairmount Blend Freshly Roasted Coffee in 25-10-5 or 3-lb. Lots, at 38c lb.
Lord Calvert Coffee, chaff removed, in 3-lb. canisters, for \$1.65
10,000-Pounds New Season Sweet-Drawing Victory Mixed Tea, Limit 25-lbs., at 3-lbs. for \$1

are interested observers in this campaign.
None of them would for a moment have prices slashed to wide-spread ruin. The women of Philadelphia have built up the better-living spirit of this region, and have worked for the hygienic handling of milk and other foods. These things are fine—and cost something. And costs can go only one place: on goods sold.
These women know that—and say human life and good health are well-worth the price. But they and we shall see what is real and what is sham. The grocery sale continues
