There Are More People Talking About This Wanamaker 20 Per Cent Deduction Movement Than About Any Other Subject in America Today

The Significant Action of the National Association of Manufacturers

at its annual meeting at the Waldorf-Astoria, New York, representing 5400 manufacturers, employing 6,000,000 people, is one of the outstanding developments in the nation-wide movement to lower the cost of living and put the country on a peace-time footing. The resolution that they adopted is as follows:

"Whereas, The cost of living has steadily advanced during the past year, be it
"Resolved, That we are in hearty accord with all sensible efforts to reduce prices of commodities, and to that end we urge our members to co-operate in all reasonable efforts to bring about that result."

Each day sheds new light and brings new encouragement to go forward.

It is our belief that there are many thousands of storekeepers who will stand together firmly against any further encroachments upon the purses of their patrons by the raising of prices.

We have reached the apex and we cannot even stand upon it.

We must find our way out through a downward door.

Labor must find the way to put through a larger production of articles of every kind or we must put an embargo on American manufactures leaving the country in order to stop the cry of scarcity.

We can bring on good times speedily if we work together for it.

(Signed) *John Wanamaker*

May 21, 1920.

It is the one big thing in the news.

It has crowded the Presidential campaigns almost completely off the first pages of the great newspapers in New York, Chicago and Washington, and is even being respectfully mentioned by some of the newspapers of Philadelphia.

It has shaken the whole structure of exorbitant prices throughout the United States.

It has brought a greater advantage in the way of savings to Philadelphia than anything else in many, many years.

It is only at Wanamaker's that there is a genuine deduction affecting all kinds of goods

Lovely Flower-Wreathed Hats A Special Lot at \$10 to \$20

Broad shady brims and comfortable crowns of fashionable height are two of their characteristics, and the hats themselves are of those popular coarse weave straws. The colors are enchanting—jade green and coral pinks, cornflower blue and nasturtium shades, black and brown and rose color—you'll find them all in the group.
Some are wreathed with field flowers, gay and colorful. Some have a cluster of posies and fluttering ribbon ends; some are massed with flowers of the same sort, all the way round the crowns.
Yes, the 20 per cent discount rule applies to these!

Just Think—Every Suit and Piece of Wanamaker Furniture at a 20 Per Cent Deduction

All the incoming new furniture is covered by the 20 per cent deduction, just like the goods already on the floors.
The incoming is continuous and, if we do say it ourselves, it needs to be so to keep up with the outgoing.
The new shipments are made up of goods of all varieties—upholstered sets of many attractive kinds from \$195 up to several hundred dollars and some up to \$335.
New dining-room suits of several grades at prices going from \$450 upward.
Bedroom suits, handsome, practical and excellently made are likewise coming in all the time, the latest arrivals being priced at \$830.
And in wicker furniture the race is a close one between the pieces being sent off the floors and the fresh ones coming to replace them.
Every suit and piece in the stock, without a single exception, is embraced in the deduction of 20 per cent.
It is believed there has never been such an opportunity.
