Nancy Wynne Goes to the Country Fair and Horse Show—She Hears of Other Fetes Today and in the Future—How Mrs. T. Improved Her Memory

WHAT with horse shows and country fairs and Misericordia Hospital lawn fetes and market day out at the Germantown Cricket Club and every thing I don't know how on earth I'm going to get around today a-tall. It's here! So much in one day and a wedding to go to this evening! Well, people like to get around the same day, so what are you going to do about it?

I got sort of tired of writing about people's clothes the other day, and thought I'd watch what they eat in- stead. It was not a bit interesting, and besides sometimes I don't like to watch others eat. There are times when it's better to keep one's eyes off when one chooses the same day, so what are you going to do about it?

My little sister, Miss Lorraine Wals, of Overbrook, is going to be married to Mr. and Mrs. Theodore L. Harrison and their family, of Rosemont, have taken a cottage for the summer. Walker-Gordon Milk  
JUST AS IT COMES FROM THE COW  
Even the microscope finds it clean  
Daily laboratory tests prove that the methods of milk production of the Walker-Gordon Laboratory Company are entirely justified.  
The scientific feeding of healthy cows is one step. Thorough and frequent cleansing of the barns, the cows and the milkers' hands during the milking period are others. Quick cooling and bottling of the milk, which is always kept at a low temperature, further helps the milk to pass the final check of the microscope.  
Certified by the Philadelphia Pediatric Society
