

## POLISH TROOPS HALT BOLSHEVIK DRIVE

Army on Beresina River Front,  
In Furious Fight, Launches  
New Offensive

By the Associated Press  
Warsaw, June 2.—Polish troops have turned to the offensive between Beresina and Kobrusk, on the center of the front, which is under attack by the Russian Bolsheviks, and on May 27 the Poles occupied the line of the Beresina river, according to an official statement of army headquarters here yesterday. The spirit shown by the Poles in the fighting has "blocked the enemy staff's offensive plan," the statement adds. Counter-attacks against the Bolshevik line on Sunday in the Pleszewicz section were successful, it is declared. Several hundred prisoners and a number of machine guns were captured. South of Kobrusk Polish raids have resulted in the taking of prisoners and of war materials.

A statement earlier in the day said: "The great Bolshevik offensive, which was begun May 14, with strong forces between the Dvina and Pripiet rivers, has been completely stopped."

London, June 2.—While the secrecy which has surrounded the mission to London of Gregory Krassin, Russian Bolshevik minister for trade and commerce, is being maintained, several newspapers here print reports on the progress the soviet envoy is making. It is generally accepted here yesterday that official permission to establish a Russian trade bureau in this city. Some papers go further and declare he has secured a lease on premises in London, but where these are has not been revealed.

This bureau will work in co-operation with the Board of Overseas Trade.

a department linking the Board of Trade with the foreign office, according to the Daily Mail, but other reports in connection with the mission indicate that the bureau's dealings will be based on virtually a system of barter. Russian grain, oil, timber and furs being offered for railroad rolling stock, agricultural machinery, textiles and other commodities much needed in Russia.

Some journals declare that before M. Krassin came to London the soviet government agreed to certain terms, including the immediate release of British prisoners in Russia, cessation of propaganda against Great Britain in India, Palestine and Persia and the abandonment of all further Bolshevik interference in the middle East.

Paris, June 2.—Lifting the embargo of Russian and conclusion of peace are indispensable conditions for the resumption of commercial relations between that country and allied nations, Gregory Krassin, Bolshevik minister for trade and commerce, has notified Premier Lloyd George, of Great Britain, according to the London correspondent of the Excelsior.

**This is the Secret of Hudson Supremacy**  
**The Super-Six Motor Is Exclusive**  
The Super-Six performs its duties with such reliance and ease one is apt to overlook the causes for its supremacy.  
Drivers and passengers of a Hudson are seldom conscious that there is anything mechanical in its smooth transportation. It never obtrudes its mechanism.  
So, from time to time, it is necessary to call attention to the Super-Six motor and its exclusive patented principle, which accounts for this fact.  
**This Is What It Does**  
Judge how complete its advantage. Merely to think of the way thousands of Hudsons, year after year, are giving uninterrupted and economical service inspires the confidence owners have in the Super-Six.  
Such performance depends upon more than good workmanship and good materials. Other cars possess those qualities. But they differ in this.  
Forces which cause early motor destruction are converted to the useful agency of propelling the car. Vibration is practically a nullified. The smoothness that results is not only appreciated in riding ease, but it means absence of strain and friction that conserves years to the life of the car.  
It means freedom from fatigue to passengers. It explains why the Hudson rides so pleasingly and endures so long against the hardest service.  
**That is Why No Car Has Ever Rivalled Hudson's Records**  
It will be years before we can know the final limit of Hudson endurance. But already it is evident that endurance is doubled through this exclusive principle. More than 100,000 cars in service and nearly five years experience reveal the character of Super-Six endurance.  
The proof is also shown in Hudson's unequalled records for speed, hill-climbing, and acceleration. They cover the field. Can there be any question of its supremacy in these respects?  
**Also a Leader in Beauty**  
If it had no other appeal than its distinctive beauty, the Super-Six would hold high position. That is recognized in the way Hudson has set motor car styles. Its exclusiveness in that respect is maintained by creation and advancement. Others can always be just behind its mode. But with its motor there can be no imitation. There it holds a monopoly.  
Strive as they may to accomplish the same results, no one has yet by official proof shown that any motor equal or satisfactorily supplants the Super-Six in those qualities for which it is famed.
