

COMMENTI ALLA ENIGLICA PAPALE

Probabile Riconciliazione tra la Santa Sede ed il Governo Italiano?

la conferenza della pace a Parigi, i delegati di parecchie nazioni suggerirono privatamente che una soddisfacente soluzione doveva essere trovata per venire alla conclusione di un concordato tra l'Italia e la Santa Sede, ma tutti furono d'accordo che la questione doveva essere lasciata alle due parti interessate, poichè ogni estranea ingerenza poteva prevenire i buoni risultati.

Sotto Pio Decimo fu suggerito che la questione papale doveva essere stata munita con un accordo internazionale, ma il Governo Italiano fece notare che non poter accettare una tale proposta, poichè avrebbe resa possibile qualche ingerenza negli affari interni dell'Italia ad una nazione firmataria dell'accordo.

Al riguardo si ricorda che all'epoca

di papa Benedetto possa essere visto fuori del Vaticano. Si dice che Papa Pio Decimo in varie occasioni espresse il desiderio di uscire dal Vaticano, specialmente all'epoca del terremoto di Messina e Calabria, con l'intenzione di recarsi sui luoghi del disastro.

NOVELTY BOILERS
You ask why I recommend this Side-Feed Boiler?
"Well, I don't know of a more productive, economical or a more sensibly constructed heating plant."
"If necessary you can increase the boiler capacity by adding sections, and if you add a dozen sections you don't add an inch to the depth of the grate."
"That means easy feeding—coal easily scattered to every inch of grate surface—hence more and cheaper heat—less trouble and care."
"Since NOVELTY Grate Bars are enmeshed in parts, I can rebuild the fire in spots, or change a burnt-out bar without disturbing the rest of the fire."
"And there is assurance of longer life—continuous service and greater resistance to temperature changes in the Flex-O-Tuf Iron from which NOVELTY parts are cast."

preteato di violazioni da parte dell'Italia. Detti argomenti sembrarono così ragionevoli che il progetto fu abbandonato.

La principale opposizione del Vaticano fu perche' la questione papale doveva essere regolata da una legge passata dal Parlamento, il quale poteva revocarla o modificarla. Venne percio' l'idea di un concordato, con caratteri di regolare trattato che poteva essere comunicato dalla Santa Sede ai governi esteri, ed avere così virtualmente una sanzione internazionale, senza alcun intervento da parte di qualsiasi altra nazione nelle relazioni tra l'Italia ed il Vaticano.
