NORMANDIE STEWARD HELD

Hotel Employee Arrested on Warrant Charging Embezzlement

Frederick Schuler, part owner of the Capitol Hotel, Johnstown, Pa., and steward of the Hotel Normandie, at Thirty-sixth and Chestnut streets, for the last five years, was held in \$10,000 bail by Magistrate Harris this morning for a further hearing a week from Sunday. Schuler was arrested last night by a private detective on a warrant

sworn out by the hotel management, charging embezzlement and larceny.

The detective was the only witness at Schuler's hearing this morning in the Thirty-second street and Woodland avenue station, testifying that the hotel management had found a shortage on examining the steward's books. Schuler said he would talk later, but made no comment when the magistrate held him.

America's Fastest Adding and Calculating Machine

This is the record of the Dalton—a record that is testified to by 65,000 users.

It is America's simplest, fastest and most versatile figuring machine.

Simple because it has 10 keys only—one for each figure. Column selection is unnecessary. Even persons who have never used an adding machine before can operate it immediately.

Speedy, because it can be operated by the touch method "eyes on the work, fingers on the keys."

"By using the Dalton, we save 25 to 30 per cent of the time formerly required by other machines," says R. M. Tennant, chief accountant of the Franklin Automobile Company.

Versatile, because it is two machines in one—an adding and calculating machine combined—for retailer, wholesaler and manufacturer alike.

Being both an adding and calculating machine, the Dalton naturally adds, subtracts, multiplies and divides, makes out statements, takes trial balances, cross-foots, tabulates, figures fractions and wages—its usefulness for the figure work of business is practically unlimited.
