Like Walking On Grass

Cantilever Shoes give such perfect comfort and develop such an casy carriage that wearing them is like walking on the softest green.

In Cantilever Shoes, with their natural inner-sole line and slightly tilted heel, the toes are comfortable and point straight ahead, as they rightly should. In ordinary shoes which turn the foot outward, the weight of the body falls on the inside of the foot, straining the arch. Cantilever Shoes distribute the weight over the heel, the ball of the oig toe, and the outside of the foot. This perfect balance spares the arch, When the Cantilever Shoe is laced

When the Cantilever Shoe is laced, the flexible shank is Grawn up and it conforms to the arch of the feet. In ordinary shoes the foot must conform to the shoe. Cantilever Shoes support the arch without appliance and correct flat foot. The flexibility of the shank allows such freedom this with every step the muscles exercise and grow strong.
