Found to Be in Perfect Condition

The Academy of Music, although sixty-three years old, is in perfect condition, according to William J. Doyle. a building expert, who inspected the famous structure for the Academy's new management. The inspection was made at the suggestion of Frank C. Roberts, of the stockholders of the new management.

The stone masonry and brick walls of the building, Mr. Doyle reports, are not only devoid of a single crack sign of settling, but are considerably excess of the building requirements o today. The cast-iron columns and the iron work in the roof trusses are also in excellent condition.

Not only is the structural lumber in the building of more than sufficient size dition of the lumber seems to be perfect "and better than lumber on the market today

The building, as a whole, is in an excellent condition." concludes Mr. Doyle, "and a credit to the period in which is was constructed.'

The Academy was built in 1857, and is therefore sixty-three years old. When it was built it was left without a roof for an entire year, exposing the con-struction to the elements of heat and

EMERGENCY SALE OF **Intensified** Values in PERRY SUITS of \$50, \$60, \$65 and \$70 Qualities at the **One Uniform Price**

\$40

What we try to do in these sale announcements -and what we always fail to do - is to divide our appeal equally between the price and the goods. We're human, and like everybody else, we're so sick of conditions generally, that we just can't keep away from that price stuff-it strikes in us the same responsive chord that it does in you! But we don't want to forget the goods and we don't want you to forget them. Think of a collection of finely fabricked and finely fabricated suits, better than \$50, \$60, \$65 and \$70 could ordinarily buy a few weeks ago, and then think of buying them for \$40! That's the proposition.

Palm Beach and Mohair Suits well made and correctly styled with Plenty of Big Sizes! \$15, \$18, \$20, \$25, \$28 Nothing can touch them for comfort on a hot and humid Summer day! **PERRY & CO.,** "N. B. T." Sixteenth and Chestnut Sts. COME-OUT-OF-THE-KITCHEN DUPLEX FIRELESS STOVE A DUPLEX FIRELESS STOTE keeps you out of the kitchen. But be sure it's a Duplex you get, for it possesses the following points of advan-1. Deep wells, aluminum lined, large cooking capacity; clean and sanitary: finest heat-retaining insulation; non-warping steel case. 2. Full equipment of WEAR EVER aluminum cooking utensils, baking rack, soapstone heating discs, cook book. etc. 3. The Duplex roasts, bakes, boils and stews with little shrinkage of food, and no loss of flavor. Uses no gas while cooking and quickly saves enough to pay for it-

ow on the market. While the Police Bureau in the past announced a crusade against dan-gerous fireworks each year, no definite steps were taken to penalize those who did not comply with the rules issued. This year, however, Director Cortelyou declares he will see that the law which places a ban on several kinds of fire-
