Save Your Shoes

When you have your shoes re-soled—and everyone does these days—you can have a kind of leather put on that will give you double wear. Thus you cut in half the expense of shoe repairing.

Strenuous tests, both in the army and out, have proved that Korry Soles will last twice as long as any other soles. They are real leather, tanned by a secret process, which makes them extra flexible and congenial to the foot. They are waterproof — absolutely and permanently waterproof—and they won't slip in the wet.

Korry-Krome GENUINE LEATHER SOLES

. Most good repair men already have Korry Soles in their shops, or can get them for you in short order. And in buying your next pair of new shoes it is well to ask the clerk if he has shoes with Korry Soles. They are as good for dress shoes as they are for work shoes. You will be surprised the way they last on a romping, scuffling child.

Korry Soles are tanned by the J. W. & A. P. Howard Company, of Corry, Pennsylvania. They are used by reliable shoe repair men. If yours does not have them, notify our local branch and we will see that you are supplied.
