MAKES A WHITE SPOT ON ANY OTHER WHITE PAINT

**For Your Factory**

If you have put off the job of making your plant more efficient and sanitary because of the high cost of painting the interior, you have not investigated More-Lyte.

More-Lyte has been in service many years and is standard at such plants as The Timken Roller Bearing Company. It resists wear because it is hard; vibration, because it is elastic; discoloration, because the formula is right; and frequent washing, because its surface is waterproof. These qualities, and its exceeding whiteness, make More-Lyte the ideal wall finish for all kinds of industrial interiors.

Finally, the method of manufacturing and distributing More-Lyte makes it available at a price that represents economy of the highest order.

For a limited time we are offering immediate deliveries from stock in gloss, semi-gloss or flat finish.

Telephone us and we will explain how you may test More-Lyte without placing yourself under obligation.
