A Word about renovating your car

Oldsmobile Renovating Service

800 N. Broad St.

When the average car needs overhauling the owner invariably takes it to the repair shop and the repair shop in turn, sends it to the painter if it needs painting, or to the top man if it needs a new top.

A service that is not only uniform and highly efficient, but exceptionally reasonable as well. There is no feature of renovating that we are not equipped to perform.

TRAYLOR

Traylor Trucks are sold and serviced by a direct factory branch. The Traylor factory, 15 miles away, is producing trucks at the rate of 10,000 a year. Immediate deliveries and factory service to Traylor owners are assured.

Factory Branch (Temporary), 17 N. 21st St.
Traylor Engineering and Manufacturing Co.
Cornwells, Pa.
Permanent Factory Branch Under Construction,
Broad and Lehigh

MOTOR TRUCKS & FARM TRACTORS

OLDSMOBILE Eight

There are today in and around Philadelphia more than 3000 Oldsmobile owners. This fact alone is final proof of the wonderful popularity and splendid service that makes Oldsmobile first choice among experienced motorists.

Franklin Touring Car

THIS is the car that gives to owners the following evidence of economy, reliability and comfort:

*20 miles to the gallon of gasoline
12,500 miles to the set of tires
50% slower yearly depreciation
(National Averages)*

And this is the car that has also established these unchallenged records of road performance—one driver continuously at the wheel on each run:

- Portland, Me., to Top of Mount Washington, N. H. (98.2 miles) non-stop, low-gear run—
- New York to Boston and return (458.8 miles) in 12 hours, 5 min.—
- Indianapolis to Syracuse and beyond (832.6 miles) in 22½ hours—
- Boston to Syracuse and return (693 miles) in 24 hours, 20 min., with a Woman driving—
- New York to Montreal (398 miles) in 9 hours, 59 minutes—
- Waterloo, Ia., non-stop, dirt-road record, (865.4 miles) in 24 hours—
- Cincinnati to Cleveland and return (553 miles) in 15 hours, 45 min.—

The Franklin is not handicapped by heavy weight and rigidity nor hampered by cooling troubles at any season. It is light, flexible and direct air cooled. We like to give demonstrations of what it can do.

*Not Only Here
But Abroad As Well*

"Travelled to the Barrage on the Vaal River and back last Sunday, 129.5 miles, on 4½ gallons of petrol. A fine average which certainly proves the makers' claims for the Franklin.

"The roads were for the most part under water, and counting gates, about 13 stops were made. Yet we maintained an average of 28 miles per hour throughout, including stops."

—From the 'Johannesburg (So. Africa) Times.
