

TURKS WILL FREE U. S. MISSIONARIES

General Promises Immediate Release of Americans Captured at Tarsus

RELIEF WORKERS WARNED

By the Associated Press
Constantinople, June 30.—The American missionaries, Mr. and Mrs. Paul Nilson, who recently were captured by Turkish bandits near Tarsus, Asia Minor, have been taken to Sivas, according to a message received from Mersina on June 26. The Turkish general in charge is reported to have promised their immediate release.

Mustafa Kemal Pasha is in general command of the military movements against the Greeks. He is conferring at Balikesir, midway between Panterma, on the Marmora coast, and Soma, with the leaders who are opposing the Greek movement toward Panderma. Ismet Bey, Nationalist chief-of-staff, and a bosom friend of Kemal Pasha, is commanding the entire Samsun front. The Nationalists apparently have been much confused by the rapidity of the Greek attack.

There are many indications that the Nationalists are concentrating at Guleve, a short distance southeast of Samsun, preparatory to a big stand there.

The Nationalists are showing a less friendly attitude toward the American relief workers than formerly. Through the port of Madania, lying on the sea of Marmora, southwest of Ismid, the American Commission for Relief in the Near East had been able to keep up communication with many interior relief stations through the co-operation of the Nationalists. Since the British force landed there and has been engaged in skirmishes, it is clear that American ships are less welcome, and there is danger that the Nationalists will close all the Marmora and Black Sea ports to American ships. All the American

women relief workers have left Batum for Constantinople.

The British mission left Erivan, Armenia, June 17. This move appears to have produced a bad effect on the situation in the Batum district, as there is danger of a swing to bolshevism.

Washington, June 30.—Americans residing in Turkey within the zone of renewed fighting have been ordered by the American commissioner in Turkey to remove to a place of safety. Notice of this action, at the suggestion of the British commissioner, reached the State Department yesterday.

BELFAST STORES ATTACKED

Several Persons Injured During Irish Rioting
London, June 30.—(By A. P.)—Rioting has occurred in Belfast, according to the Daily Sketch. Thirteen grocery stores were attacked by the rioters. The police prevented serious damage to property; but in the fighting the Head Co. stable boss was struck by a stone and severely injured. Several other policemen were slightly hurt. The exact date of the disturbance was not given by the newspaper.

HEPPE

July Records at Heppes To-morrow

To-morrow morning the July List of the Victrola Records goes on sale. We invite all Victor patrons to visit our store and hear them.

The list this month has many desirable records. There are excellent Red Seal records by Galli-Curci, Elman, Besanzoni, Caruso, McCormack, Zanelli, Harold, Johnson and the Philadelphia Orchestra. The dance records are very fine and the popular songs are remarkably good.

If you do not have a Victrola, we offer certain outfits composed of a Victrola and a group of records. You may settle by cash or charge account, or by our one-year rental-payment plan. Call or write for full particulars.

ESSEX MOTOR CARS

A New Essex Free

To Be Given to the Person Who Comes Nearest to Naming the Total Distance Traveled by the Two Essex Cars in a 7-Day-and-Night Non-Stop Motor Endurance Test

Watch the Essex This Week

Everywhere throughout America during this week, the Essex will, in a thousand ways, and with as many different cars, further prove its distinctive performance, reliability and economy.

Every type of test that reveals these qualities will be made. They will cover the greatest hill climbs—the inter-city records for speed—the hardest kind of rough country driving over the nation's most notorious roads.

They will include economy tests. No performance that proves car quality will be omitted.

There will be non-stop tests in which cars will be run constantly, for seven days—the motor never stopping and the car in motion all the time, except to take on fuel and to meet traffic regulations.

How Far Will the Essex Travel in 7 Days?

To the person giving the nearest to correct estimate of the distance our two Essex will be driven will be given a brand new Essex touring car.

You will see the cars on the streets. A relay of six drivers will keep them in constant motion.

Robert D. Harper
Chief Clerk to Mayor of Philadelphia
Judge Byron E. Wrigley
and **W. R. Walton**
of the Firestone Tire Company

Both cars will stop at 12 o'clock noon, Saturday, July 3. The same three men will then break the seals and record the number of miles covered by both cars even to the tenth of a mile. To the person whose estimate comes nearest to being correct will be given a new Essex touring car without charge.

You pay no money. You don't have to buy anything. Merely make your estimate. The contest is open to every man, woman and child.

3037 Miles in 50 Hours

Such a distance was covered by an Essex stock chassis on the Cincinnati speedway. Of course no such speed will be possible in this instance on account of traffic conditions. But this does reveal something of what might be expected if performance were unrestricted by traffic conditions.

Come to our store if you want to know more about Essex capabilities.

Keep in touch with the performance of Essex cars in other cities. No such nation wide demonstration was ever made for another car.

Essex already holds hundreds of performance distinctions. This week will greatly add to their number.

Maybe you will be able to get an Essex free. If you don't let your choice be an Essex because of its record. Nearly 50,000 owners know its worth.

A Chance for Everyone

COUPON This contest closes at 12 o'clock noon, Saturday, July 3, 1920. In order to receive consideration, all estimates must be made on COUPON appearing in our newspaper advertisements or on slips furnished by drivers of the two ESSEX cars. My estimate of the total distance traveled by the two Essex stock cars in the seven day non-stop motor endurance test is

..... Miles..... Tenths of Miles
