

LEGION WILL HAVE TENT CITY AT SHORE

Atlantic City Post Plans Unique "Open House" for World War Veterans

INVITATION IS GENERAL

Open house for all legionaries is being conducted by the Atlantic City Post of the American Legion at the resort. An invitation has been received by the seventy-eight posts in Philadelphia to take advantage of the Atlantic City leave area.

The Atlantic City Post has built a tent town at which, for a nominal sum, living quarters are provided under canvas to visiting legionaries from any part of the United States. This plan insures the Legion members accommodations at a reasonable price. It also affords them the advantages of all Atlantic City features.

Camp D'Olier is the name of the tent

city, in honor of the national commander. The camp will be in operation next week. The mayor and city councilmen of Atlantic City granted the right to use a plot of city-owned ground and the city engineer laid out camp streets. The idea was evolved by William Fisher, former top sergeant Company C, Twenty-third Engineers. The Legion camp is located at one end of the Boardwalk, a stone's throw from the Atlantic City Yacht Club's clubhouse. Opposite it there is an athletic park and a baseball field.

Two hundred may live in the camp at one time, no legionary being permitted to stay longer than two weeks. The charge will be \$5 a week. Accommodations can be arranged by addressing James Butler, 1512 Atlantic avenue, Atlantic City, N. J.

At the regular monthly meeting of Yeoman (F. Post No. 50) American Legion, held Tuesday evening at the Jewish Welfare Board room, 1616 Master street, the post unanimously ratified the new state constitution. The appointments of Miss Bertha Harris as Americanism officer, Miss

May McCormick as entertainment officer and Marion Manthou as sergeant-at-arms were announced.

After the meeting an informal dance was held, the jazz band of Post No. 277 furnishing the music. Conspicuous among these guests were delegations from Post Nos. 20, 83, 142 and 282.

A Corn? Why, a touch will end it!

A corn today is needless, and millions of people know it. Years ago nearly every woman had them. Now women who know Blue-jay never suffer corns.

Ask your own friends. Blue-jay comes in liquid form or plaster. One applies it in a jiffy—by a touch. The pain stops. In a little time the whole corn loosens and comes out.

The proof is everywhere. Tens of millions of corns have been ended in this simple, easy way. This is the scientific method—the modern way of dealing with a corn. It was created by this world-famed laboratory, which every physician respects. One test will solve all your corn problems. Make it tonight. Buy Blue-jay from your druggist.

FREE THIS WEEK ONLY

At the Stores Named Below
A 10-Day Tube of Pepsodent

Make This Free Test For the Sake of Whiter, Safer Teeth

All Statements Approved by High Dental Authorities

The dealers named below have been supplied with 10-Day Tubes of Pepsodent. This week a tube will be handed free to anyone who asks. Simply present the coupon. The purpose is to urge a test of this film-removing tooth paste, which leading dentists nowadays advise. Prove the results for your own sake and your children's sake. Learn what they mean to your teeth.

See How Your Teeth Look When the Film is Gone

There is on your teeth a slimy film. You can feel it with your tongue. It clings to the teeth, gets between the teeth and stays.

The tooth brush doesn't end it. The ordinary dentifrice does not dissolve it. So it clings and, night and day, it may do ceaseless damage.

The results are seen everywhere in cleaner, whiter teeth. Some of your own friends have them.

For home use, this method is embodied in a dentifrice called Pepsodent. And, this week you can test it at our cost.

The Tooth Wrecker

That film is the great tooth wrecker. Most tooth troubles are now traced to it.

The film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of many other troubles, local and internal.

That is why well-brushed teeth so often discolor and decay, why tartar forms and pyorrhea starts. You leave much of that film.

Tooth troubles are constantly increasing, as statistics show, despite the wide use of the tooth brush. And the reason lies in that film.

Now We Combat It

Dental science, after years of searching, has now found a way to combat film. Able authorities have proved it by convincing clinical and laboratory tests. Thousands of dentists have proved it, and at least a million people.

Watch the Results

We urge you to present the coupon. Get the 10-Day Tube and use like any tooth paste. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten—how they glisten—as the fixed film disappears.

Compare the results with your old methods. Then let your own teeth decide the method best for you and yours.

This is of lifetime importance. Don't neglect it. Cut out this coupon so you won't forget.

Pepsodent

REG U S PAT. OFF

The New-Day Dentifrice

An efficient film combatant, proved by years of clinical and laboratory tests. Now advised for daily home use by leading dentists everywhere.
