The corrective measures were applied also to the commodity markets, and elsewhere, where the speculative spirit of inflation had run rampant. Business has felt the pinch, and already has had its effects in curtailing operations. The progress of the deflation policy was seriously interrupted and handicapped-by reason of the protracted strikes of the railroad men and the tie-up of the transportation industry. This has naturally seriously blocked the curtailment of outstanding commercial loans, by reason of the inability to ship finished products or obtain the necessary raw materials.

week. Failures are on the increase and some lines are very quiet.

Dun's Review says:

"Under pressure of credit restrictions and diminished consumption of commodities, among other elements, the weak spois in the business situation are being brought to the surface. This fact is made clear by the half year's insolvency record, but more particularly so by the June statement, which discloses more failures in the United States than in any month in a year and a half, and the largest labilities of all months since April, 1915. The June defaults, numbering 674, involved about \$33,000,000, or the heaviest amount for the period back to 1914, and this swelled the half yearly indebtedness to fully \$86,700,000 of the first six months or 1919, an increase of 26 per cent appears, whereas the 3352 failures of the half year just ended are 3.2 per cent under the 3463 reverses of 1919."

Bradstreef's says:

The position of the industries is not greatly different from some weeks ago, though seasonal influences are adding their weight to further reduce manufacturing output in lines which go to make by wearing apparel, shoes, and other normal necessities. Woolen goods demands is even quieter and complete abutton wools have been picked up at conceasions by manufacturers. Advances on new clip wool consignments do not exceed twenty-five cents. Silk manufactures are a little more active but raw silk its dult."

New Crop

Chicago. July 3.—In the wholesale and jobbing trade, reports covering June transactions show a volume of business in the West larger than for June, 1919, but the percentage of increase is not as great as it has been in the previous months of the year. Mail order houses in their June business generally exceeded the totals of n year ago, but also failed to keep up the per-arrange of the year. ago, but also failed to keep up the per-centage of gain scored in the first months of 1920. Collections continue good and retail dealers have generally been successful in effecting satisfactory

clearance sales.

The railroad conditions are still far from normal, and the roads are unable to cope successfully with the problem of distributing the vast amount of mer-chandise offered. In some directions, chandise offered. In some directions, gradual improvement is noted in transportation conditions, but the big industries are still much handicapped by the lack of adequate facilities.

The crop outlook is, in the main, satisfactory. Shipments of 1919 grain are being made in somewhat larger volume, clearing the way for the new crop move-

being made in somewhat larger volume, clearing the way for the new crop movement. High prices are being paid for grain of all kinds, no serious setback having yet taken place in values. As a result, the great buying power of the West is being further augmented.

BUSINESS OPPORTUNITIES DISTRICT MANAGER

Very unusual opportunty is effered by a successful and progressive national chain-store organization to a man possessing executive capacity, a clear record and an effective personality: such a man will easily earn \$5000 and more per annum in salary and commission; as a matter of good faith, the successful amplicant will be required to invest \$2000; his work will be on a contract basis, and the goods he will sell are of the highest quality in their field, which is a competitive one. Address General Manager, Room 17, 240 Broadway, New York city.

ACCOUNT OF DEATH—Carpenter and leb-bing shop, 1584-1686 Fawn st.; established over 85 years; look the place over by ap-pointment, Saturday afternoon, or Sunday; a barania at your fattle if fair. Address C. E. J., 5729 Torresdale ave., Frankford.

While our facilities for strictly high-grade refinishings are perhaps the most complete and largest to be found, the strain in keeping delivery promises is great; it will prove of great assistance if patrons who fittend having their cars refinished will inform us at their earliest convenience. Then dates can be arranged, so that cars will not be out of use for any length of time.

We bake each coat of finish as applied; this insures longer wear and far handsomer finish. Come and see for yourself.
