Reputation Built on Merit

HERE is nothing temporary in the leadership which Ajax Cord Tires have won. It is quality leadership earned through merit; a natural tribute to the longer life, better looks and surer service built into Ajax Cords.

The Cleated Tread of the Ajax Cord is an assurance of security. Those cleats do hold-just like the cleats on an athlete's shoes. And that indented grip-spot in the center of each cleat is an added security factor.

Every Ajax Tire has Ajax Shoulders of Strength-those buttresses of pliant rubber that reinforce the tread. They give greater strength where the strain of service is most severe.

The Ajax Sales and Service Depots are headquarters for Ajax Cord Tires, Ajax Road King (fabric) Tires, Ajax Inner Tubes and Ajax H. Q. (High Quality) Tire Accessories.
