Why Crew Levick oil lasts longer on overhead shafting

Your overhead line shafting carries perhaps the greatest load in your plant. It must run continuously and efficiently every working hour. The best lubrication for that shafting is always least expensive, for quality oils always last longer—that is the proof of their quality.

Pennsylvania crude oil is acknowledged by all experts to be the richest in lubricating quality of any oil produced in America, and it is very scarce. All Crew Levick Lubricants are refined exclusively from this base oil.

Read this story of Philadelphia's industrial progress

Philadelphia's steady growth is measured by her industries. Progress in business increases her greatness as a city and as a national asset. New factory buildings are a definite mark of progress. They mean more production, more commerce, more people working, living and consuming in Philadelphia.
