A Summer Shower.

WHEN thunder-clouds pile up and empty a sudden deluge of rain on your house, then you will learn the difference between a tin roof and all others.

Slate, tile, and shingle roofs are of little use where rain gathers in deep pools, and runs off slowly. Then it soaks through such roofs, and floods the rooms below.

But a good tin roof is as tight as a tub. No matter how deep the water, the tin roof holds it until it runs off.

For roofs there's nothing like tin—but you want the best tin. Ask any roofer. If he names NU-DURA-TIN, you're safe.

This Great Sale of Society Brand

Clothes is now in full swing

NEVER have you had an opportunity to buy some of the smartest styled Clothes made—at the prices shown below. Everybody knows Society Brand Clothes for their expert designing, superb fabrics and masterful workmanship.

Here's how it happened: Many of the finest woolens bought by Society Brand were delayed through freight congestions beyond the possibility of manufacture and distribution to outside merchants. They turned to us for quick disposal, offering us their finest SUITS—fresh from the tailor shops—at a surprising price concession. And here they are—priced down to their original costs.

\$32 \$42 \$52

The Saving is an Average Liberal Third

REMEMBER many Suits are being made up daily—just as long as the woolens last. When they're gone we will not be able to replace them at these prices. Also bear in mind that they're made up in the up-to-the-minute styles by one of the foremost manufacturers in the country. Every worth-while fabric and pattern in this great assortment, with sizes to fit every young man and man who cares.
