Poland Requests U. S. to Give Moral Support

Washington, July 23.—(By A. P.)—Poland has asked the State Department to formally announce to the world the "moral support" of the United States to Poland in its battle with the Russian Bolsheviki.

By the Associated Press
London, July 23.—Poland has sent armistice proposals direct to the Soviet Government at Moscow, according to a dispatch from Warsaw. Hope is entertained in official Allied circles that the proposed negotiations may make Allied intervention to save Poland unnecessary and prevent another big European war, which is said to be threatened.

By the Associated Press
The negotiations begun by Poland with the Soviet are on the question of an immediate armistice along the entire front of about 720 miles. The proposals were withdrawn after failure to reach any definite conclusion in dealings with M. Tschitcherine, the Bolshevik foreign minister, through Premier Lloyd George, of Great Britain.

The Soviet, in a note to Lloyd George, expressed a willingness to negotiate directly with Poland. The British premier advised Poland to make armistice proposals.

After the Polish proposals had been dispatched from Warsaw by wireless at 2 o'clock yesterday afternoon by the national council of defense, a new coalition cabinet was formed under the leadership of M. Witos. The new cabinet has the support of the Socialist party, Warsaw advises state, M. Datuszynski, the head of the Socialist organization, is the vice premier. Aside from these two changes the cabinet remains the same.

Polish Message Pointed
The Polish message to Moscow was short and at the point. There was some delay in disseminating it, owing chiefly to hitlers in the organization of a coalition cabinet, with the peasant party leader, Witos, as premier. The council of national defense and Premier Witos's cabinet had been considering the question since Wednesday night, and it was known that much property was destroyed and the looting has been heavy. Last night the sky was crimson from bonfires of burning furniture at many places.

Support Lloyd George
Almost all the newspapers support re-annexation of the territories which have been lost to Poland. The general argument is that independent Poland is necessary for the safety of Europe under present conditions, and that the Allies cannot afford the risk of letting the Bolsheviki frontiers join those of Germany.
