"What need I care about the size of your stocks? Of what concern to me is it that you have a million dollars' worth of furniture?"—is asked by an iconoclast at the writer's elbow.

And the answer is this—

If you needed to borrow a hundred dollars—or a hundred thousand dollars, of what avail would be a friend who would like to help you but hadn't the money?

From running railroads to making home-runs, success depends on the possessed power.

At this moment we would have to pay more for Furniture than we shall charge for it in this sale—makers are at "peak" of production costs. This business, by reason of its needs as hotel furnishers was enabled to own the furniture for this sale at—

Decided Savings from Present Values

And by reason of our extensive warehouse facilities, we were able to house the goods, and the sale opens with full and plenty, in the face of transportation delays and embargoes.

Whatever is needed for any house or apartment—

Seven-piece Living-room Suite for Bungalow, at \$35
to elaborate suites at \$3000, showing an Italian XVI Century reproduction.

Dining-room Suites, \$200 to \$3,500

The collection rich in Period reproductions.

Bed-room Suites, \$85 to \$3,500

The collection of furniture meets today's conditions—something, and the right thing, for your particular requirement.

Come, See How the Furniture is Made

We show the interior construction and the wood before the "finish" is applied. To make a sale to you is of no very great concern, but to so sell you furniture as to make you and keep you a customer of the store, is of very great concern to us. The Store grows on good service.

Partial Payments on Furniture

Can be arranged in just as straightforward manner as though you bought a house and "financed" the transaction.

Every Advantage of the Sale is Yours

Monday—The Sale Opens

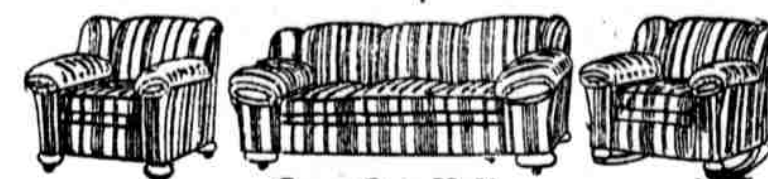

And by every method of comparison we are sure you will vote it the great Sale of Philadelphia. —Gimbels, Sixth floor
