# These Beautiful Homes

. . ince of Merchants took the lead, at personal sacrifice of profits, in bringing down the high costs of merchandise, so we have determined to make an effort to make it possible for the public to buy good homes at more reasonable prices. To this end we shall offer our houses and lots west of 66th Street at 10 per cent less than real selling value. The prices on these homes are well known in the neighborhood and the genuine reductions can easily be verified. It is our endeavor to sell these properties directly to those that wish them for occupancy.

STATE OF THE STATE O

COVERING THE ENTIRE FIELD OF

WORKSHOP VENTILATION workshop ventilation is absolutely essential for Health. Comfort and Efficiency. There are buildings in which natural ventilation is sufficient. Professional experts agree that 30 cubic feet of pure, fresh air per minute is the minimum requirement for each person to maintain health. If this is not naturally supplied it can be obtained mechanically.

If you are interested in a ventilating problem consult with our Engineers.
