

BIG OIL SHIPMENT
 3,000,000 Barrels Ordered Here to Fill Government Tankers
 Three million barrels of fuel oil for government tankers are to be delivered at Philadelphia, according to an announcement made by the United States shipping board today.
 The shipping board recently called for bids for furnishing a five-year supply of fuel oil at the rate of 20,000,000 barrels a year.
 The prices range from \$1.10 to \$2.30 a barrel, the board agreeing to charter the necessary steamship transportation at a fixed monthly rate of \$6.50 per deadweight ton.
 In addition to the amount delivered here, 125,000 barrels will be delivered at Port Arthur, Tex., and from 4,000-

000 to 7,000,000 barrels during a period of three years at New Orleans.
 The will of Katherine A. Derbyshire, of this city, who died in New York, leaving an estate valued at \$175,000 and naming her son, Herbert Derbyshire, as sole beneficiary, was admitted to probate today in the office of the register of wills. Other wills probated were that of Dr. Joseph Farley, of this city, who died in Atlantic City, \$19,700. Private bequests: The will of Matilda Witt, 1722 Baring street, \$4500. Divided among relatives.

HIT COBBS CREEK CAR PLAN
 Association Asks Mayor to Ban Trolley Loop on Boulevard
 Twelve men, headed by George R. Seiffert, who is president of the Cobbs Creek Parkway Home Association, called on Mayor Moore today, to protest against operation of a trolley loop on the Cobbs creek boulevard.
 An ordinance was passed Tuesday by Council which would grant the P. R. T. permission to operate Route No. 42 cars north from Spruce to Market streets on the boulevard. At present, the route goes west only to Sixty-first street.
 The delegation wants the Mayor to veto the ordinance. They say it would mar the boulevard.

Manufacturers!
 Increase Your Production With Automatic Machinery
 In this way alone you can overcome increased labor costs and labor shortage. We can design and build automatic machinery that will speed up your production now while demand exceeds supply and thereby increase your profits from increased sales and decreased production costs, and later when supply equals demand you will be prepared to profitably produce in the face of competition.

We Can Design and Build for Your Own Particular Product Automatic Machinery for

CANDY—Automatic Machines that wrap in paper, molasses kisses, hard candies, etc. Machines that wrap in foil, chocolate bars and small candies. Machines that wrap 25,000 packages of hard candies a day.

SOAP—Automatic Machines that wrap each cake in tissue paper, put in cartons and fold cartons and put cartons in larger box.

POWDER—We will make Machines that build up a carton or box, weigh and fill the same with powder, or place cover on the box, wrap the box completely with a printed wrapper, and then place a trade mark seal on each end of the package and place package in large cartons.

BOTTLES—We will design Machines that will automatically make boxes from sheets of cardboard, put them together, tuck in the bottom end, place the jar or bottle with circular or directions therein, tuck in top, making complete cartoned package without the touch of the human hand.

FABRICS—Machines that will automatically tie tapes around piece goods, wrap in paper and leave ticket on outside of package.

CIGARS—Machines that will automatically wrap cigars in paper and foil.

PILLS—Machines that will count pills, place them in glass bottles, put label on bottle, put bottle in carton and seal carton.

ENVELOPES—Machines that will put powder puffs or any other article in envelopes and seal same automatically.

Box, candy, chemical, leather, metal, paint, paper, printing, rubber, sugar, shoe, steel, textile, tobacco INDUSTRIES.

NO MATTER WHAT YOUR PRODUCT WE CAN SHOW YOU HOW TO INCREASE PRODUCTION AND DECREASE PRODUCTION COSTS

DUPLEX TRUCKS
 BUILT FOR BUSINESS
 By One of the Oldest and Most Successful Truck Companies in America

Duplex Limited—
 a high-powered, high-g geared, speedy, pneumatic-tired, worm-driven truck, built to fill the gap between strictly light delivery cars and slower-speed, heavy-duty trucks.

Think of a truck of 3000 to 5000 pounds capacity (including body) traveling easily and smoothly 25 to 30 miles an hour. No truck of like capacity can approach it.

And it does it safely and economically.

Speed is attained by high engine power—not low gear ratio. This is what transportation men have demanded, and the DUPLEX LIMITED is the only truck that combines passenger-car speed with motor-truck hauling capacity.

The DUPLEX LIMITED is a worm-driven motor truck. — the brother of the famous DUPLEX wheel drive heavy-duty truck, a recognized leader in its field. Each has its distinctive uses. Both are built to the same high mechanical and engineering standard. But the DUPLEX LIMITED has many superior and exclusive features besides its unusual speed. It will pay you to investigate.

Specifications in Brief
 Motor, 4 Cyl., 125 H.P., 42 H.P. Wheel Base, 110" Lubrication, Automatic High Pressure System Rear Axle, Sheldon Worm with cast-iron mainable steel housing Tires, pneumatic 35x7 rear, 35x5 front
 Equipment: Windshield, electric lighting and starting, ammeter, battery, motor, speedometer, horn, front fenders, driver's seat and power tire pump.
