

STRANA RICHIESTA RIGUARDO SPALATO

L'Ammiraglio Americano Vorrebbe il Ritiro Della Navi Italiane dal Porto

Published and Distributed Under PERMIT NO. 841. Authorized by the act of October 3, 1917, on file at the Postoffice of Philadelphia, Pa.

Buenos Aires, 29 luglio.—Un dispaccio al giornale "La Nacion" da Roma, dice che l'Ambasciatore Americano Robert Underwood Johnson ha presentato al Ministro Italiano per gli Affari Esteri, Conte Sforza, un memorandum del Vice Ammiraglio Philip Andrews, comandante le forze navali americane nell'Adriatico, nel quale si dice che perche' egli sia abile di poter mantenere l'ordine a Spalato, Dalmazia, e' necessario siano ritirate le navi italiane ancorate in quel porto.

Roma, 28 luglio.—Una incresciosa questione si delinea sull'orizzonte tra la Grecia e l'Italia a causa del l'imperialismo del Ministro di Grecia Venizelos i quali sembra deciso a non firmare il trattato di pace con la Turchia se l'Italia non ratifichi la convenzione italo-greca del luglio 1919, secondo la quale le isole del Dodecaneso, ad eccezione di Rodi, venivano cedute alla Grecia in cambio della Valle del Meandro in Asia Minore.

Un dispaccio da Parigi, al riguardo, dice che la delegazione greca ha informato gli Alleati che si rifiutera' di apporre la sua firma al trattato di pace con la Turchia se l'Italia non rinunzierà formalmente al possesso delle isole di cui sopra.

S'ignora quale sara' l'atteggiamento che l'Italia prendera', ma si ritiene impossibile che possa accedere alla richiesta della Grecia.

Un dispaccio da Londra reca che i Primi Ministri di Francia e Inghilterra si sono posti d'accordo, nella loro riunione a Boulogne, sulla condotta da tenere di fronte al Governo Comunista Russo.

Essi avrebbero deciso di riconoscere il Governo dei Soviet e di attivare con esso le relazioni diplomatiche. La decisione dei due primi ministri sara' sottoposta all'Italia per avere la sua approvazione e la sua partecipazione ai negoziati con la Russia. Si dice, pero', che i tre Governi, prima di aprire i detti negoziati, chiederanno che il Governo di Mosca concluda in pace con la Polonia.

It's an easy test—and the only real one

Give a fair test to any lubricant whose makers claim high quality, and pay no attention to the price till after you've made the test. If the quality is a reality you will find the lubricants cost less per running hour in spite of a higher price.

For the proof of quality in oil is that its lasting ability shall make it cheaper per hour—and you cannot consider price without considering hours.

Test Crew Levick lubricants in your mill on that basis. Test them at every bearing that contributes to your production—in the power plant, the spinning frames, looms, cards, garnets, spindles,

shafting—right on down to the very motor-trucks that carry your product away. You'll find the answer the same at every point—they go further per dollar.

They are refined exclusively from the very scarce Pennsylvania Crude oil—acknowledged to possess the greatest natural lubricating qualities of any oil produced in America.

And if you are a wool spinner, don't forget Crew Levick Wool Oils. No member of the great family of Crew Levick lubricants covers more ground per dollar than those same wool oils.
