Companions Flee Down Rain-

spout-Prisoner Tells

Fantastic Story

AFTER SILVER DOLLAR

One of three young men who climbed

a rainspout in front of the Schaeffer

auction house, 224 North Eighth street,

early this morning, was arrested after

a householder, a watchman and a pa-

The prisoner said he was John

Michaels, sixteen years old, Second

street and Girard avenue. He told

what the police consider a fantastic

story to the effect that a man had thrown a silver dollar to the roof of the Eighth street house, and told him and his two companions that whoever

three, he said, swarmed up the rain-

spout to the roof.

The police believe the three went up

the spout. Two of them certainly es-caped by sliding down it again. Michaels had started down when the bullets whistling by him made it seem safer to

M. Rosenabum. a jeweler. 222 North Eighth street, discovered the men on the roof early this morning. He was awakened by a noise, took a flashlight and a revolver, and searched the house.

He found everything in order and re-turned to bed. Fifteen minutes later he

heard another noise, as of some one on the roof. He looked out of a win-

dow and saw three men. He shouted

to them to get down, and when they did not heed, opened fire. His shots

J. Echtinoff, a night watchman. The two entered a house on Summer street,

climbed to the roof, and scrambled over

were down the spout before the patrol-

Michaels started after them, but returned

when the third shot fired by Barron was aimed at him instead of in the air.

Grelis, Michaels denied that he knew

the other men. The magistrate fixed

BOARD MEETS SOON

ON TEACHERS' RISE

Dimner Beeber Says Oanvass Is

Being Made to Get Quorum

Together

OPPOSES FLAT INCREASE

Dimner Beeber, member of the finance committee of the Board of Education, stated over the phone from Atlantic City today that a special meeting of

the Board of Education would be called

as soon as possible to consider the question of teachers' salaries.

made of the members to see if a suffi-

cient number can be assembled to act

on the question and that a meeting will

e called as soon as a quorum can be

Mr. Beeber said that he is opposed to

any plan of giving a flat increase among

"There are many reason why I am so opposed." said Mr. Beeber, "but the

pposed." said Mr. Beeber. "but the

oution, equal to each one, would not be

antisfactory.

The Dick plan, which provides grad-nated advances for the teachers accord-

ing to their grading, is more satisfac-tory, and the moving up of the schedule for a year would make their advances reasonably large. The \$700,000 that it

proposed to divert from the \$2,000,-00 school loan would be needed to

carry this advance of the schedule into

effect. In fact, it would take from \$1, 200,000 to \$1,400,000 to make this ef

"I understood that the citizens' com

mittee was committed to a \$400 flat

increase per teacher, but even though they might be satisfied with less the

Board Knows Its Problems

"The citizens' committee cannot pos-

sibly know the intricacies of board problems as the board itself does, and any commitment to a flat rise for the teachers would put the board in an un-

to no stipulated rise in salaries, an advance of the kind recommended by the

citizens' committee would eventually

ead to trouble, as the teachers, if they

got a smaller rise next year, or none at all as the case might be, would cause

however, should desire to have a meet-

ng of the finance committee to conside

this proposition. I should be ready and

at any time to attend.'

the finance committee, on the other hand indicated that he was in accord

with the plan of Simon Gratz to

financial men in floating the loan.

Franklin Smedley, another member of

citizens' committee to interest

He also stated that the stipulation of

George Wharton Pepper, acting chair-

man of the committee, that the money

be divided in the form of a flat and

equal distribution or increase to the teachers, appealed to him as a fair one. "Of course." said Mr. Smedley, "I

should like to see the whole matter definitely before the committee before

saying what I would do, but the plan sounds reasonable to me.

Wants to Proceed

"Any plan that will insure the teach-

take care of the other employes of the

board is satisfactory to me. My prin-cipal concern is that we proceed within

our legal limitations.
"Since Mr. Jenkins has declared the

plan of offering the bonds for sale over

he counter a legal one, we will ad-

vertise it again and would just as soon

have it sold through the citizens' com-

mittee as in any other way.
"We divised the counter sale method

of disposing of the bonds as the only

method left for us to raise the necessary

money for the teachers. I will be in the city all summer and will be ready

JUST SWIM FARTHER OUT

ON ROOF OF HOUSE Scientists Explain That Offshore Winds Have Merely Driven

reduced the mystery of the cold surf to a simple formula of weather condi-tions and ocean currents. They are in

spring and offshore winds are at the heart of the trouble.

Here is the explanation of an engi-

neer official of the Coast and Geodetic

Survey, which charts the coasts and

the coast it tends to swing offshore.

With strong westerly winds during the winter it is blown farther offshore, swinging back in the spring when the winds subside.

"The Labrador current comes down

between the coast and the gulf stream and disappears at Cape Hatteras. Pre-

sumably it goes under the gulf stream there as a subcurrent. That is our

TO FIND WARM BATHING

Gulf Stream Eastward a Few Miles

Westerly winds, a misplaced gulf water on the winds and general at-

stream and a boisterous Labrador curmospheric conditions.
"When the wind is offshore, it blows

rent, chilled by icebergs, account for the discomforts of bathing at New Jersey on shore, blows it in." he explained coast resorts this season.

Government scientists, sweltering in the heat of a Washington summer, have reduced the mystery of the cold surf

Dr. C. S. Brooks, editor of the Weather Review, official publication of the Weather Bureau at Washington, approached the subject with the mind of a meterologist, blaming the cold cause or effect of the cold waves.

Another Big Ship Leaves Ways at One Bill Condemns Property

thousand employes of the plant and their pal piers are to be built.

season, as it has been a cold spring and cool summer. Water takes its

warmth largely from the air and sun-

light. A warm spring means warmer water. Conversely a cold spring means

colder water.
"I have no information concerning

the ocean currents. Of course, the gulf stream doesn't directly affect the water along the New Jersey shore at all."

Gulf Stream Has Altered

the Coast and Geodetic Survey engineers

that the gulf stream has shifted slight-ly, came from officials of the Bureau

of Fisheries. Dr. R. E. Coker, of the bureau, declared reports had come in

rom up the coast indicating the stream

has altered its course.
"There has undoubtedly been a slight

deviation of the gulf stream," he said.
"We haven't had definite reports to

this effect, but observations made far-ther up the coast—along Long Island—

show that the water hasn't warmed up this year as usual. This may be due

this year as usual. This may be due to the cold spring and possibly to cold currents from the north. The gulf stream isn't so far offshore but that it

would have some effect on the temper

sture of the water at the beaches."
Scientists of the Smithsonian Insti-

tution who study most subjects on, over

and under the earth, declared they had

DOES YOUR WATERFRONT NEED FIRE PROTECTION?

THE United States Navy is selling its most remarkable class of small boats. the Submarine Chasers, for one-fifth of their original cost. A slight amount of rebuilding will make ideal fire-boats. Your City should take immediate advantage of this exceptional opportunity to secure one or more for its Fire Department.

It will mean a reduction in your waterfront insurance rates. It will also cut down actual fire damages along the water.

These vessels have been offered to your City Officials for from five to sixteen thousand dollars apiece, average boats costing \$12,500. They should be bought to protect you. Get in back of the measure to purchase them and insure yourself an adequate waterfront protection.

The City of Savannah has been negotiating for one to be used as a fire-boat and it was estimated that the purchase would lower fire insurance rates along the water by ten per cent. As police boats these big, ocean-going

motor boats will also cut down thefts by river pirates and reduce burglary insurance on the wharves. They will also make ideal pilot boats, revenue cutters and marine insurance patrol boats. These boats cost the Navy about \$80,000

each. They are 110 feet long and have a 15 foot beam. Their three Standard marine engines give them a speed of 18 knots per hour.

They are ready for immediate delivery, berthed in the Navy Yards, awaiting purchasers. No delays, no red tape, no bids. Definite selling prices. Can be purchased at a reduction for cash or on a partial payment plan over a three year period.
