

SULL'ACCORDO TRA ITALIA E ALBANIA

Neessuna Conferma Ufficiale e' Stata Data Sulla Notizia al Riguardo

Published and Distributed Under PERMIT NO. 841. Authorized by the act of October 3, 1917, on file at the Postoffice of Philadelphia, Pa.

Roma, 4 agosto.—Neessuna conferma ufficiale e' stata data alla notizia pubblicata dal Giornale d'Italia che, secondo dispetti giunti da Valona, un accordo sarebbe stato raggiunto tra il rappresentante del Governo Italiano, Conte Mansoni, e il governo provvisorio albanese in Tirana.

tante all'occupazione di Valona ma anche ai capi Treponti e Linguetta, situati all'entrata della baia, mantenendo il possesso dell'Isola di Sadenio, di fronte alla baia stessa, ed il didotto a concessioni economiche riguardo al porto, nonché quello dello sfruttamento di alcune miniere nelle vicinanze di Valona. Inoltre, sempre secondo quanto pubblica il giornale predetto, l'Italia si riserverebbe libertà d'azione militare in caso che una qualsiasi nazione minacciasse Valona o l'integrità dell'Albania.

La notizia, del resto, sembra che non sia del tutto esatta, poiché il possesso dell'Isola di Sadenio sarebbe inutile per l'Italia, senza quello dei capi Treponti e Linguetta. Se l'Italia vuol conservare la base navale di Valona, necessariamente ha bisogno del possesso della città e di tutti i punti strategici. Perciò e' bene attendere la notizia ufficiale riguardo all'intervento accordato.

Copenaghen, 5 agosto.—In seguito ad un accordo raggiunto tra M. Litvinov, assistente commissario per gli affari esteri del governo bolscevico in Russia, ed i delegati dell'Ucraina e dell'Italia, il Conte Gravina, addetto navale italiano ora ad Odessa, ha preso le necessarie disposizioni per lo scambio dei prigionieri russi ed italiani.

La Russia ha inoltre richiesto il rap-

presentante dell'Italia di continuare negoziati per la ripresa delle relazioni commerciali ed un vapore che ha condotto i prigionieri russi ad Odessa ha ora preso un carico di grano per l'Italia.

REGAINS YOUTHFUL BEAUTY

Woman of 49 Recovers Charms by Surgery—Must Suppress Emotion
Paris, Aug. 5.—A Parisian woman, forty-nine years of age, has just recovered the beauty that was her cherished possession when she was twenty-five years old. Her face has not a wrinkle, and has its contour of twenty years ago.

The disadvantage is that she must suppress her sense of humor and emotions and refrain from smiles, frowns and crying.

The wizard who worked the miracle was a surgeon with a knife.

"I'm just crazy with joy about it all," the rejuvenated woman exclaimed. "But I don't smile. That would start the wrinkles all over again. I would never have needed an operation if I

hadn't gone around laughing and crying over nothing all my life."

The operation was simple enough. It amounts to this, that small incisions are made behind the ears and on the scalp, and the skin is stretched much in the same way as one stretches a carpet.

Spanish Cloth Factories Close
Paris, Aug. 5.—The American four-factories in the province of Barcelona announced their closing today. The reason given is that stocks of cloth are so large that they cannot be disposed of, owing to the prohibition of exportation of this product. Hundreds of weavers throughout the province have been thrown out of work.

The temperature of the average ice box is 55° to 65° unsafe for foods

Apply this test to your refrigerator

Put in a thermometer and test the temperature. You will find most compartments from 55° to 65°, a temperature in which food spoils and dangerous bacteria develop.

If you had Isko attached to that same refrigerator, every compartment would be from 10° to 15° lower—food would be kept sweet and fresh and healthful at all times and the danger from tainted food would be eliminated.

Isko makes its own ice for table use from any pure drinking water. It eliminates the unsanitary drain pipe and drip pan—the uncertainty of ice deliveries—the intrusion of the ice man. It does this automatically and at an operating cost less than the cost of ice.

Send for our booklet on Isko or, better yet, come see it at work in our showrooms.

AMERICAN STORES CO.

And Each One Adds His Profit

When you sit down to dinner have you ever stopped to speculate on the paths the various foods have traveled on their journey from the farm to your table? Take potatoes, for instance: The farmer delivers them to the "commission man"—the commission man delivers them to the wholesaler, after adding his "commission" to the price—the wholesaler tacks on his profit and delivers the potatoes to the retailer—the retailer adds his profit and delivers them to you.

When the goods finally reach you they have passed through the hands of three "middlemen"—each of whom has charged you for his share in passing them along. The same prevails with the hundreds of other food products.

In this middleman's expense you are carrying an unnecessary burden. By our Producer-to-Consumer plan of distribution, this extra expense is eliminated. From the farm direct to your table is our economical method and the expense that we thus eliminate is YOUR saving.

What Would Groceries Be Costing Today Were It Not for the American Stores Co.?

As an Example
of how our Producer-to-Consumer Plan actually does save you money, just consider the low price at which we are selling Potatoes—
