

SOVIETS IN ILLINOIS SAUCE RIOT; 5 DEAD

6000 Aliens Leave Illinois Town After Night of Terror

MOB NUMBERED 4000 MEN

West Frankford, Ill., Aug. 6.—Following a night of rioting in which five persons are believed to have been killed and scores injured, comparative quiet was restored today. Approximately 5000 foreigners, against whom the rioters directed their attack, had left town, and this, coupled with the arrival of 150 militiamen of the Ninth Illinois Infantry, tended to bring about order.

A number of homes were burned and a pool hall was wrecked. The mob, estimated at 4000 men, was active until 10 o'clock last night and continued to nearly daylight. At times the mob split up in sections, and it was reported that some divisions drove foreigners into nearby woods.

Troops Scattered in Town
The troops were stationed in sections of the town, and were directed to persons of foreign birth, and instructed to protect the property abandoned by the fugitives.

Witnesses to the rioting said a number of foreigners had been beaten into insensibility by the mob, many being trampled upon.

Several women were hit by missiles, it was said. Many of those beaten, however, were taken to hospitals and treated in the streets and were picked up by relatives after the mob had gone to other sections of the town.

Following formation of the mob an ultimatum was issued to Mayor Fox and Sheriff Watkins to leave town, or else give the rioters free rein. A press censorship was established to keep news of the rioting from the outside world.

Incensed at Murders
Public indignation was aroused following the arrest of Sotkin, De Sessis in connection with the murders of Amelia Calcaterra and Tony Hoppel, two youths. A mob formed and stormed the jail at Marion, where De Sessis was incarcerated. Officers of the Illinois National Guard were called to the scene, and advised of the mob's approach and the situation of the prisoners.

TEUTONS BAR ALLIED SHIPMENTS OF ARMS

London, Aug. 6.—(By A. P.)—The

Bavarian Traffic Council has decided to issue a proclamation to postal and telegraph employees calling on them to prevent the conveyance of Entente troops, arms and munitions by all means, paralyzing, if necessary, the whole of the Bavarian transport system, says a wireless dispatch from Berlin.

The contingency of Germany having to fight to resist a possible attempt by the Entente to send troops through Germany to help Poland was mentioned by the Reichstag yesterday by Dr. Walter Simons, the foreign secretary, according to another message from Berlin.

"If this is true," he declared, "it constitutes a violation of German neutrality, for the territory, although occupied, is German, and the agreement of the Entente not to send troops through Germany is a violation of the agreement."

The German Government will make use of any weapons in order to remove these difficulties, although the use of force will be possible to achieve the end desired by persuasion and mutual understanding and that cause for the use of force will not arise.
