Canadian Does High Hurdles in Photon 14 4-5—Navy Athletes in Belgium

Antwerp, Aug. 7.-Earl Thomson,

the famous Dartmouth hurdler, who is running for Canada, yesterday beat the Olympic record for the 110-meter high burdles. In his first practice sprint, the intercollegiate champion was clocked in 144-5 seconds. This is one-fifth second under the present mark made by Forest Smithson, an American, in 1908. One hundred and ten meters is approximately 125 yards.

Sunny weather, the first here in a week, greeted the navy athletes of the

United States who arrived yesterday on the United States steamship Frederick. A transport carried them up the river to the landing pier. They took their first practice in the Olympic stadium The main body of the track and field

athletes, who are aboard the United States steamship Princess Matoika, are expected to land here today. The Chilean athletes, Juan Jorquera and Arturo Mediq, were among the new arrivals today. Jorquera is entered in the 1000-meter run and the Marathon, while Mediq is to compete in the jave-

Interest in the Marathon is being centered in Persico, an Italian, who has been making fast time in trials. Persico yesterday did fifteen miles in 1 hour and 27 minutes.
