

CALLS CONVENTION OF ASSOCIATION TO MEET IN ATLANTIC CITY

October 5-8

PROJECT IS VITAL NEED

Mayor Moore today issued the official call for the thirteenth annual convention of the Atlantic Deepwater Waterways Association, to be held in Atlantic City from October 5 to 8.

Never has the soundness of the plans and projects advocated by this association received such general and conclusive endorsement as now, when congestion of traffic congestion and embargoes on freights are so common.

One of the main reasons for better waterways and busier waterways from New England to Florida, linking together all the Atlantic ports and the great river systems of the eastern seaboard, already connected with the Great Lakes, and thence with the interior river systems from Canada to the Gulf.

Plans have been approved. One plan has received the necessary approval of the necessary agencies and has been partially materialized, through favorable action by Congress.

Factors for Reevaluation. The increase of the war and a large further increase has just been authorized and will be accepted by a public which knows some increase to be necessary.
