A FOUR-YEAR PROGRAM FOR PHILADELPHIA
Things on which the people expect the new administration to concentrate its attention:
The Delaware river bridge
A dredge to be used to accommodate the largest ships
Development of the rapid transit system

HUSTON IS INELIGIBLE
OUT of the many able engineers and architects practicing their profession in this part of the country, it ought to be possible to pick one to design and supervise the construction of the Delaware river bridge who has never been found guilty of breach of trust or served a term in jail for a fraud upon the state.

DR. FURBUSH STANDS PAT
DOCTOR FURBUSH, director of the Department of Health, insists that the employees under him are loyal to him and to the administration. Consequently he has refused to remove any of them, in spite of the urging of the Mayor.

THIS COMMUNITY IS OUR UNIVERSITY'S DEBTOR
Payment Should Be Made in Generous Organized Aid to Secure the Financial Stability of Pennsylvania
THE University of Pennsylvania is insolvent. This community primarily is its debtor. "Nothing will be gained," as a contemporary statesman once remarked in a different crisis, "by leaving this essential thing unsaid."

FOR SHAME, UNCLE SAM!
EVERY electrician, every carpenter, every plumber, every painter and every other tradesman employed should receive the same wage paid to similar men in private employment.
This is a rule to which there should be no exception. The people have no right to ask the men who serve them to make financial sacrifices.

A REAL RUSSIAN POLICY
IT IS impossible to misread the intent and consistency of American policy regarding Russia and Poland in the strong, clearly reasoned and heartening note addressed by Secretary Colby to the Italian ambassador.

Six Hundred Miles a Minute is the Speed at Which We Are Traveling Toward the Star Vega
AT ABOUT 8:30 o'clock at night, every night for the next week or more, every man, woman and child in Philadelphia will be traveling almost directly upward at the dizzy rate of 600 miles a minute.

AN ATOM OF PREVENTION
RECENT serious fires in this city make the people willing to listen to a forecast of a major fire, a large one, in the city of Philadelphia, getting \$50,000 a year. He wishes \$200,000. With the larger sum he could employ a force sufficient to make a thorough inspection of all buildings and to see to it that they are made safe.
