

HARDING SEES U. S. BAR TO REVOLUTION

Exhorts America to Stand Firm in "Assault on Our Inherited Civilization"

BROTHER HAS BIRTHDAY

Worthington, O., Aug. 12.—To get "back on the right track," nationally and internationally, was declared by Senator Harding in a speech here late yesterday to be the supreme problem facing the world.

"There is just as much menace in the world today," said the nominee, "as there was in the turbulence of the war. Civilization has not yet settled down. I want America to settle down and to stand as a barrier to revolution and disorder throughout the world."

"I beg to speak this afternoon solemnly and solemnly, my countrymen. Let us hold fast to the firm foundations that we can always go on safely, and let us make certain, since we've been on a long detour, to get back on the right track and then go ahead."

Making his first speech away from Marion since the campaign began, the candidate also pleaded for a better understanding among nations and among nations and declared that because he stood for order and stability he was "not looking backward, but just clinging to the present."

The address was delivered to a birthday gathering here in honor of Senator Harding's brother, Dr. George T. Harding, Jr., and his guests who crowded Dodson Harding and cheered the speech, were members of the Harding family and of the Worthington Chamber of Commerce and the Kiwanis Club of Columbus. Senator Harding and Mrs. Harding made the forty-mile trip here by automobile, going by way of the Scioto Club, where the candidate played eighteen holes of golf.

Senator's Speech

Senator Harding's speech follows in part:

"We have been motoring this afternoon and in the reflections of the motor ride I found myself likening modern travel to some of the problems of life. I discovered that when the going is smooth we went along speedily and comfortably, and then occasionally we found spots so rough or road so thoroughly out of repair that we had to detour, but I observed always that just as quickly as we could we got back on the main highway again."

"I likened that to a very recent experiment of government. The torn-up condition of the world took us temporarily off the main forward track, and I think it is the business of the people of the United States of America to get back on the main road again."

"Then I thought of another somewhat similar parallel—that when you build a road that you expect humanity to travel over you must not only build for future use but you must commit yourself to the upkeep of the road. Then I noted one other—a highway for modern travel is not any good if it does not have a perfect foundation and there has never been a perfect highway built since modern civilization began if it did not have a good foundation. If you have a firm foundation you can always get on no matter what the immediate surface conditions, and again I make the application for government—the United States of America must hold to a firm foundation no matter what the immediate surface conditions may be."

"I am not thinking of partisan politics—out loud, at any rate—but I venture to make one remark, and you make the application in which I give it. The world has always found firm foundations necessary to government."

"And I want to preach to you as a fellow citizen, not as a candidate for office, the supreme necessity of the present day gospel of understanding. If there is anything the world needs in the present state of turbulence, in the present state of unrest and fevered conditions, insurrection and rebellion, age and revolution, it is understanding of men and women with one another."

Marion, O., Aug. 12.—(By A. P.)—The dates and places for the limited number of campaign speeches to be made by Senator Harding away from Marion will be selected with great deliberation by Republican party leaders after a minute canvass of local conditions.

The plan to be followed in the front porch campaign, under which separate speeches will be devoted to separate issues, may be extended to such addresses as the candidate makes away from home. It has been suggested that one of the most important of these ad-

resses be delivered in an agricultural section of the country and be devoted to questions of special interest to farmers.

Many invitations to speak at county and state fairs have been received as well as many requests that the nominee address meetings of various farm organizations. Among those who have bid for a visit from the candidate are the Minnesota state fair and the Iowa state fair, both of which meet within the coming month.

OHIO DEMOCRATS MAKE CLOSE RACE

Only Narrow Margin Separates Candidates for United States Senate

Columbus, O., Aug. 12.—(By A. P.)—Returns early today from Tuesday's primary election showed a nip and tuck race for the Democratic nomination for United States senator. Complete unofficial returns from 5,300 of the 6,000 precincts in the state gave a lead of only 532 votes to Judge A. F. O'Neil, of Akron, over W. A. Julian, of Cincinnati. The vote was: O'Neil, 28,251; Julian, 27,719.

With only approximately 300 precincts still missing, former Mayor Harry L. Davis, of Cleveland, continued to maintain a lead of 17,000 votes over former Congressman Ralph D. Cole, of Findlay, for the Republican nomination as governor. Former Governor Frank B. Willis had a lead of 50,000 votes over Walter F. Brown, of Toledo, for the Republican nomination for United States senator.

Little Rock, Ark., Aug. 12.—(By A. P.)—United States Senator William F. Kirby apparently was defeated for re-election by Representative Thaddeus H. Caraway in Tuesday's statewide Democratic primary, unofficial returns from more than two-thirds of the state showed today. Senator Kirby, characterized by President Wilson as one of the "wilful" senators, was attacked by his opponent during the campaign for his opposition to the administration in the early stages of the war.

WOMEN WATCH TENNESSEE

Penna. Suffragists Keen for News of Battle for Vote in South

The eyes of the political organizations of the state are focused on the Legislature of Tennessee, watching closely every move in the battle for the ratification by the state of the Susan B. Anthony amendment, giving the franchise to women.

The Pennsylvania League of Women's Citizens announces that the authoritative word on the probable fate of the amendment is expected from Mrs. Carrie Chapman Catt, president of the National Woman Suffrage Association, today.

In this city yesterday it was said that some of the stand-pat Republicans had gone over to the old-line Democrats in Tennessee to prevent ratification of the amendment at this time.

VOTE ON SUFFRAGE IN TENN. FRIDAY

Leaders in Both Houses Agree Not to Defer Final Action

WOMEN LOBBYISTS SCORED

By the Associated Press
Nashville, Tenn., Aug. 12.—A vote tomorrow on ratification of the federal woman suffrage amendment in both houses of the Tennessee Legislature appeared certain today.

Chairman Riddick, of the House committee, to which the joint ratification resolution was referred, has announced that the House will vote on it tomorrow. The Senate also will take final action on the resolution then, according to announcement of Speaker Todd. Party leaders were said to be agreed that nothing could be gained by postponing action until next week.

Preparations were being made today for the joint hearing tonight on the suffrage resolution. The opposing factions also continued their attempts to corral the support of senators and representatives who had not yet definitely announced their stand on the question.

After the House yesterday voted

down a proposal to delay action on ratification until after August 24 so that mass-meetings might be held throughout the state to ascertain, supporters of the plan said, the sentiment of the public on ratification, Representative Story introduced a joint resolution which would prevent action for or against passage or rejection of ratification resolution. Efforts to secure immediate action on suspension of the rules failed and the proposal went over until today. The story resolution declared that "great doubt exists as regards legality of action by this Legislature," and predicted that ratification, if accomplished, would be held up by court action.

Senator McFarland offered a joint resolution ostensibly aimed at suffragists and their opponents here from other states to lobby among the legislators. The measure asks the lobbyists to please go away and let us alone. We would much prefer your room to your company." The resolution also stated that men of Tennessee "are fully capable and competent to fight our own fights without interference from any outside people whatsoever."

Governor Roberts was on the floor of the House during yesterday's session and was said to have conferred with various representatives in the interests of the ratification resolution.

Raleigh, N. C., Aug. 12.—(By A. P.)—The North Carolina Legislature called into special session to consider taxation questions and ratification of the federal woman suffrage amendment, probably will not tackle suffrage until tomorrow and perhaps not until Saturday.

Governor Bickett, who had planned to send a message on suffrage to the Legislature today, announced that it had not been completed. He said the message probably would be delivered tomorrow, although it might be delayed until Saturday.

COX FIRES FIRST BIG GUN TODAY

Starts on Speaking Tour. Roosevelt Opens Democratic Campaign in Chicago

BOTH TO VISIT MANY STATES

By the Associated Press
Columbus, O., Aug. 12.—With Governor Cox en route to Camp Perry, Ohio, to deliver his first address since his notification, and with his running-mate, Franklin D. Roosevelt, on a western trip, the Democratic plan of

carrying their cause to the people was under way today. Leaving here for Toledo, Governor Cox was to motor from there to Camp Perry and speak about 5:30 p. m., returning here tonight via Toledo. His next speaking engagement is at Wheeling, W. Va., on Saturday, when he will address the Democratic state convention and later a public gathering. At Camp Perry the Democratic standard-bearer was to close the day's rifle competition program by awarding trophies, including the Ohio executive's cup, open in the rifle meet to regular soldiers, national guardsmen and civilian sharpshooters.

Chicago, Aug. 12.—(By A. P.)—Franklin D. Roosevelt, Democratic candidate for Vice President, left today on a speaking tour that will take him through fifteen states and as far west as the Pacific coast.

Three speeches are on today's program, opening with brief addresses at Kenosha and Racine, Wis., and closing with a night meeting at Milwaukee. From Milwaukee, Mr. Roosevelt will go Friday to St. Paul and Minneapolis for two meetings in the Twin Cities. Mr. Roosevelt and James Hamilton

Lewis, former United States senator and now candidate for the Democratic nomination for governor of Illinois, opened the campaign here last night. The vice presidential candidate addressed a large part of his speech to former progressives, eulogized ex-President Roosevelt and invited his former followers into the Democratic fold.

Hawaii Awaits Prince of Wales. Honolulu, Aug. 12.—(By A. P.)—Private advices to Honolulu report that the Prince of Wales will arrive at Kealahou, the site of the Captain Cook monument on the island of Hawaii, on August 30, aboard the H. M. S. Renown, will visit Kilauea volcano and arrive in Honolulu August 31.

Announcing the PIERCE-ARROW Dual Valve trucks

with double ignition and electric lights,
a 2-ton truck
a 3½-ton truck
a 5-ton truck
and a tractor

These mark as notable an advance as the Worm Gear, introduced by Pierce-Arrow in 1910, which has become the dominant truck drive.

The Dual Valve principle means greatly increased power and surprising operating economy.

48 of the FIRST FIFTY trucks still running after 9 years' service.

Pierce Arrow

Delivers more work in a given time.
Loses less time on the job and off the job.
Costs less to operate and less to maintain.
Lasts longer, depreciates less, commands a higher resale price.

THE GREAT EXPANSION of facilities and the efficient organization necessitated by War production developed invaluable experience enabling us to enhance the high quality which always has marked Pierce-Arrow.

THE PRESENT LINE retains these distinctive Pierce-Arrow characteristics—durability, long life, easy operation. It gains materially in these vitally important attributes:

Pulling Power—equal to any demand
Gasoline Economy—more miles per gallon
Accessibility—for quick economical repairs

THESE ARE PRIMARY FACTORS in operation and maintenance—the true test of truck economy.
