

MILLER RUSSIAN POLICY IN FRANCE

Millerand Would Recognize the Soviets if They Promise Constituent Assembly

GERMANY APPEALS TO POPE

Sumner of special cable dispatches to the public Ledger. (Copyright, 1920, by the Public Ledger Co.)

Paris, Aug. 18.—Premier Millerand would recognize the Soviet Government tomorrow if the Soviet leaders would solemnly promise to hold a general and honest consultation with the Russian people.

This statement to Wythe Williams for the Public Ledger yesterday, by the Poles, noting French minister of foreign affairs, in the absence of the premier, is the first definite announcement of a change in France's Russian policy. M. Poincaré has not accepted it, as was the "sole condition" of French recognition.
